A Parkett #08 Gilbert Lascault, Christine Meyer-Thoss, 1986-01-01 **Eye on Europe** Deborah Wye, Wendy Weitman, 2006 An intriguing and vibrant study of an innovative and lesser known facet of contemporary art Identifies significant strategies exploited by European artists to extend their aesthetic vision within the mediums of prints books and multiples Exploring commercial techniques confrontational approaches and language and the expressionist impulse Showcases the creativity being channelled into printed art by today's generation Bernhard Mendes Bürgi. Exhibitions 1982-2016 Philipp Kaiser, 2025-06-27 The publication concentrates on Bernhard Mendes Bürgi's more than thirty years of curatorial work The focus is on a typographically generously designed list of all 110 exhibitions that Bürgi has been responsible for particularly as director of the Kunsthalle Zürich and the Kunstmuseum Basel accompanied by many installation views A detailed discussion with Philipp Kaiser sheds light on the curatorial guidelines which are contextualized in current events The special significance of the ideal solo exhibition which always emerges anew from a close collaboration with the respective artist becomes apparent *MARKUS RAETZ*, 1988 *Contemporary Artists: L-Z* Sara Pendergast, Tom Pendergast, 2002 Arranged alphabetically from Magdalena Abakanowicz to Tadaaki Kuwayama this volume provides a biography of the artist a selected list of exhibitions a list of public collections that include work by the artist and more

Realism - Relativism - Constructivism Christian Kanzian, Sebastian Kletzl, Josef Mitterer, Katharina Neges, 2017-06-12 The book presents papers from leading proponents of realist relativist and constructivist positions in epistemology and the philosophy of language and ethics Potential Images Dario Gamboni, 2002 In *Potential Images* Dario Gamboni explores ambiguity in modern art considering images that rely to a great degree on a projected or imaginative response from viewers to achieve their effect Ambiguity became increasingly important in late 19th and early 20th century aesthetics as is evidenced in works by such artists as Redon Cezanne Gauguin Ensor and the Nabis Similarly the Cubists subverted traditional representational conventions requiring their viewers to decipher images to extract their full meanings The same device was taken up in the various experiments leading to abstraction For example it was Kandinsky's intention that his work could be interpreted in both figurative and non figurative ways and Duchamp's Readymades suggested the radical conclusion that it is the beholder who makes the picture These invitations to viewers to participate in the process of artistic communication had social and political implications as they accorded artist and beholder symmetrical almost interchangeable roles **The Museum of Illusions** Céline Delavaux, 2013 The art of optical illusion has been an integral part of painting since antiquity when it was used as a yardstick by which to judge an artist's level of mastery This book presents a fascinating overview of the different methods of illusion practiced by artists over hundreds of years Organised into five chapters Optical Illusions Distortions and Hidden Images De Figurations Questioning Perception and Overstepping Reality it brings together artists from various time periods and disciplines **The Endless Enigma** Jean-Hubert Martin, Stephan Andreae, Museum

Kunst Palast (Düsseldorf, Germany), 2003 Fascinated by optical phenomena and curious to explore the limits of picture making painters share a long history of creating visual puzzles composite pictures with shifting perspectives Ambiguous images whose various levels of meaning depend entirely on the observer's point of view have drawn more than a few painters brushes over time This rich volume is dedicated to that multifarious tradition from early Indian and Persian miniatures of imaginary anthropomorphic landscapes to Giuseppe Arcimboldo's pictures of the seasons and finally the works by the great surrealist masters Max Ernst and Salvador Dalí encountering along the way such diverse artists as Francis Picabia William Hogarth Leonardo da Vinci M C Escher Tony Cragg and Kara Walker Dalí whose work is at the center of this book and gives it its title came up with no less than seven strata of perception for his work The Endless Enigma in which parts of the picture merge into ever new scenarios depending on the individual area the viewer chooses to focus on A unique presentation of ambiguous pictures that originated in different cultures and epochs The Endless Enigma Dalí and the Magicians of Multiple Meaning reveals the enormous complexity of this artistic phenomenon underlining the meaning of the method of seeing and discovering
