Mars Disarmed R. Cunninghurst, 1901 Gender, Politics, and Allegory in the Art of Rubens Lisa Rosenthal, 2005-09-05 Gender Politics and Allegory in the Art of Peter Paul Rubens examines the intertwined relationship between paintings of family and marriage and of war peace and statehood by the Flemish master Drawing extensively upon recent critical and gender theory Lisa Rosenthal reshapes our view of Rubens works and of the interpretive practices through which we engage them Close readings offer new interpretations of canonical images while bringing into view other powerful works which are less familiar The focus on gender serves as a catalyst that enables an original way of reading visual allegory giving it a dynamic multivalence undiscovered by traditional iconographic methods

Enchanted Islands Mary D. Sheriff, 2018-08-16 In *Enchanted Islands* renowned art historian Mary D Sheriff explores the legendary fictional and real islands that filled the French imagination during the ancien regime as they appeared in royal ballets and festivals epic literature paintings engravings book illustrations and other objects Some of the islands were mythical and found in the most popular literary texts of the day islands featured prominently for instance in Ariosto s Orlando furioso Tasso s Gerusalemme liberata and F nelon s Telemachus Other islands real ones such as Tahiti and St Domingue the French learned about from the writings of travelers and colonists All of them were imagined to be the home of enchantresses who used magic to conquer heroes by promising sensual and sexual pleasure As Sheriff shows the theme of the enchanted island was put to many uses Kings deployed enchanted island mythology to strengthen monarchical authority as Louis XIV did in his famous Versailles festival Les Plaisirs de l le enchant e Writers such as F nelon used it to tell morality tales that taught virtue duty and the need for male strength to triumph over female weakness and seduction Yet at the same time artists like Boucher painted enchanted islands to portray art s purpose as the giving of pleasure In all these ways and more Sheriff demonstrates for the first time the centrality of enchanted islands to ancient regime culture in a book that will enchant all readers interested in the art literature and history of the time

Premodern Masculinities in Transition Konrad Eisenbichler, Jacqueline Murray, 2024 Sheds new light on how masculinity was understood lived performed and viewed during a period of huge change Premodern masculinity was multivalent and dynamic a series of intersecting conflicting and mutating identities that nevertheless were

distinct and recognizable to people and their societies The articles collected here examine a variety of means by which masculinity was constructed deconstructed and transformed across time geographies and cultures Articles range across the twelfth to seventeenth century from western Europe to the Volga Ural region from the Christian west to the Muslim east from Ottomans to Mongols and Persians from Baudri of Bourgueil to Blaise de Monluc while topics include the chivalric hero the effeminate man beards and spurs represented variously in literature historical documents and art Finally in that period of great transformation that is the sixteenth century they show how masculinity moved away from the traditional and recognizable to become something different and distinct from its premodern expressions
