Oliver Optic

Marsh House:

The Philadelphia Country House Mark E. Reinberger, Elizabeth McLean, 2015-10-21 A highly readable beautifully illustrated study of the homes built by elite colonial Philadelphians as retreats which balanced English models with developing local taste Colonial Americans if they could afford it liked to emulate the fashions of London and the style and manners of English country society while at the same time thinking of themselves as distinctly American The houses they built reflected this ongoing cultural tension By the mid eighteenth century Americans had developed their own version of the bourgeois English countryseat a class of estate equally distinct in social function and form from townhouses rural plantations and farms The metropolis of Philadelphia was surrounded by a particularly extraordinary collection of country houses and landscapes Taken together these estates make up one of the most significant groups of homes in colonial America In this masterly volume Mark Reinberger a senior architectural historian and Elizabeth McLean an accomplished scholar of landscape history examine the country houses that the urban gentry built on the outskirts of Philadelphia in response to both local and international economic forces social imperatives and fashion What do these structures and their gardens say about the taste of the people who conceived and executed them How did their evolving forms demonstrate the persistence of European templates while embodying the spirit of American adaptation The Philadelphia Country House explores the myriad ways in which these estates which were located in the country but responded to the ideas and manners of the city straddled the cultural divide between urban and rural Moving from general trends and building principles to architectural interiors and landscape design Reinberger and McLean take readers on an intimate tour of the fine fashionable elements found in upstairs parlors and formal gardens They also reveal the intricate working world of servants cellars and kitchen gardens Highlighting an important aspect of American historic architecture this handsome volume is illustrated with nearly 150 photographs more than 60 line drawings and two color galleries

The National Register of Historic Places, 1978 *Old Houses of the Ancient Town of Norwich [Conn.] 1660-1800* Mary Elizabeth Perkins, 1895 *William Faden and Norfolk's Eighteenth Century Landscape* Andrew Macnair, Tom Williamson, 2010-08-24 William Faden's map of Norfolk published in 1797 was one of a large number of surveys of English counties produced in the second half of the eighteenth century This book with accompanying DVD presents a new digital version of the map and explains how this can be interrogated to produce a wealth of new historical information It discusses the making of the Norfolk map and Faden's own career within the wider context of the eighteenth century cartographic revolution It explores what the map and others like it can tell us about contemporary social and economic geography But it also shows how carefully examined the map can also inform us about the development of the Norfolk landscape in much more remote periods of time The book includes a digital version of the map on DVD Andrew Macnair is Research Fellow at the School of History in the University of East Anglia Tom Williamson is Professor of History and Head of the Landscape Group at the University of East Anglia

Newport Through Its Architecture James L.
