Marx's 'Das Kapital' For Beginners Michael Wayne,2012-05-29 Marx s Das Kapital cannot be put into a box marked economics It is a work of politics history economics philosophy and even in places literature yes Marx s style is that rich and evocative Marx s Das Kapital For Beginners is an introduction to the Marxist critique of capitalist production and its consequences for a whole range of social activities such as politics media education and religion Das Kapital is not a critique of a particular capitalist system in a particular country at a particular time Rather Marx s aim was to identify the essential features that define capitalism in whatever country it develops and in whatever historical period For this reason Das Kapital is necessarily a fairly general abstract analysis As a result it can be fairly difficult to read and comprehend At the same time understanding Das Kapital is crucial for mastering Marx s insights to capitalism Marx s Das Kapital For Beginners offers an accessible path through Marx s arguments and his key questions What is commodity Where does wealth come from What is value What happens to work under capitalism Why is crisis part of capitalism s DNA And what happens to our consciousness our very perceptions of reality and our ways of thinking and feeling under capitalism Understanding and learn from Marx s work has taken on a fresh urgency as questions about the sustainability of the capitalist system in today s global economy intensify
