Marxism Alfred G. Meyer, 1964 *Marxism* Alfred G. Meyer, 1954 Karl Marx's Theory of History Gerald Allan Cohen, 2000 First published in 1978 this book rapidly established itself as a classic of modern Marxism Cohen's masterful application of advanced philosophical techniques in an uncompromising defence of historical materialism commanded widespread admiration In the ensuing twenty years the book has served as a flagship of a powerful intellectual movement analytical Marxism In this expanded edition Cohen offers his own account of the history and the further promise of analytical Marxism He also expresses reservations about traditional historical materialism in the light of which he reconstructs the theory and he studies the implications for historical materialism of the demise of the Soviet Union

Foucault, Marxism and Critique Barry Smart, 2013-01-11 In this work originally released in 1983 Barry Smart examines the relevance of Foucault's work for developing an understanding of those issues which lie beyond the limits of Marxist theory and analysis issues such as individualising forms of power power knowledge relations the rise of the social and the associated socialisation of politics He argues that there exist clear and substantial differences between Foucault's genealogical analysis and that of Marxist theory Smart thus presents Foucault's work as a new form of critical theory whose object is a critical analysis of rationalities and of how relations of power are rationalised **A Japanese Reconstruction Of Marxist Theory** Robert Albritton, 1986-04-02 **Marxist Phoenix** Murray E.G. Smith, 2014-05-05 Looking to an increasingly perilous and inequitable future many progressive activists and scholars are seriously questioning the capacity of global capitalism to guarantee the conditions for human well being and sustainability in the 21st century This development inspires the central inquiry of Marxist Phoenix Will the intensifying contradictions and multiple crises of contemporary capitalism incite the emergence of a mass socialist workers movement committed not merely to the reform of capitalism but to its overthrow This collection of new and previously published essays articles and book chapters written over the last two decades makes the case for the indispensability of the Marxist socialist project to the emancipation of humanity from material insecurity and ever worsening social antagonism Only a global workers movement committed to the fundamental tenets of Marxism a triumphant Marxist Phoenix rising from the ashes of the multiple defeats of the 20th century can open the road to real social progress Interdisciplinary rigorous and critically engaged with many currents in contemporary academic discourse this volume is a timely contribution to the rebirth of a Marxist socialism that is at once scientific emancipatory and internationalist in its commitments *Post-Marxist Theory* Philip Goldstein, 2005-01-01 An introduction to the philosophical economic historical feminist and cultural versions of post Marxist theory **Survey of China mainland press, supplement** United States.
