The Washington Post Ryland Grace is the sole survivor on a desperate last chance mission, and if he fails, humanity and the earth itself will perish. Except that right now he doesn't know that. He can't even remember his own name, let alone the nature of his assignment or how to complete it. All he knows is that he's been asleep for a very, very long time. And he's just been awakened to find himself millions of miles from home with nothing but two corpses for company. His crewmates dead, his memories fuzzily returning, Ryland realizes that an impossible task now confronts him. Hurling through space on this tiny ship, it's up to him to puzzle out an impossible scientific mystery and conquer an extinction-level threat to our species. And with the clock ticking down and the nearest human being light years away, he's got to do it all alone. Or does he? An irresistible interstellar adventure as only Andy Weir could deliver. Project Hail Mary is a tale of discovery, speculation, and survival to rival *The Martian* while taking us to places it never dreamed of going. **Mary** Mary Shelley, 2020-11-20 Mary Wollstonecraft Shelley 1797-1851 was an English novelist who wrote the Gothic novel *Frankenstein; or, The Modern Prometheus* 1818, which is considered an early example of science fiction. She also edited and promoted the works of her husband, the Romantic poet and philosopher Percy Bysshe Shelley. Her father was the political philosopher William Godwin, and her mother was the philosopher and feminist activist Mary Wollstonecraft. Shelley's mother died less than a month after giving birth to her. She was raised by her father, who provided her with a rich, if informal, education, encouraging her to adhere to his own anarchist political theories. When she was four, her father married a neighbour with whom Shelley came to have a troubled relationship. **Mary** Владимир Владимирович Набоков, 1970 A young officer exiled in Berlin discovers that his first love is leaving Russia to join her husband in Berlin. Mary, a Fiction Mary Wollstonecraft, 2017-11-02 *Mary A Fiction* is the only complete novel by the 18th century British feminist Mary Wollstonecraft. It tells the tragic story of a heroine's successive romantic friendships with a woman and a man. Composed while Wollstonecraft was a governess in Ireland, the novel was published in 1788 shortly after her summary dismissal and her momentous decision to embark on a writing career, a precarious and disreputable profession for women in 18th century Britain. Inspired by Jean Jacques Rousseau's idea that geniuses are self-taught, Wollstonecraft chose a rational self-taught heroine, Mary, as the central character of her novel. Helping to redefine genius, a word which at the end of the 18th century was only beginning to take on its modern meaning of exceptional or brilliant, Wollstonecraft describes Mary as independent and capable of defining femininity and marriage for herself. It is Mary's strong original opinions and her resistance to conventional wisdom that mark her as a genius. Making her heroine a genius allowed Wollstonecraft to criticize marriage as well; geniuses were enchained rather than enriched by marriage.
