Marxist Philosophy:

Polemics in Marxist Philosophy George Edward Novack, 1978 Novack defends scientific socialism the generalization of the historic line of march of the working class first advanced by Karl Marx and Frederick Engels He answers those in the twentieth century who parading as the true interpreters of Marx have provided a philosophical veneer for the anti working class political course of Stalinist and social democratic misleaderships around the world *Marxist Philosophy in China : From Qu Qiubai to Mao Zedong, 1923-1945* Nick Knight, 2006-01-01 This book recounts the history of Marxist philosophy in China between 1923 and 1945 through the writings and activities of four philosophers Qu Qiubai Ai Siqi Li Da and Mao Zedong Two of these philosophers Qu and Mao were also political activists and leaders but their contribution to this history is as important if not more so than the contribution of Ai and Li who were predominantly philosophers and scholars The inclusion of Qu and Mao underlines the intimate connection between philosophy and politics in the revolutionary movement in China It is not possible to speak credibly of Marxist philosophy in China without considering the political context within which its introduction elaboration and dissemination proceeded Indeed each of the philosophers considered in this book repudiated the notion that the study of philosophy was a scholastic intellectual exercise devoid of political significance Each of these philosophers regarded himself as a revolutionary and considered philosophy to be useful precisely because it could facilitate a comprehension of the world and so accelerate efforts to change it By the same token each of these philosophers took philosophy seriously each bent his mind to the daunting task of mastering the arcane and labyrinthian philosophical system of dialectical materialism Philosophy might well be political they believed but this was no excuse for philosophical dilettantism **Issues in Marxist Philosophy: Materialism** John Mepham, David-Hillel Ruben, 1979 V 1 Dialectics and method v 2 Materialism v 3 Epistemology science ideology v 4 Social and political philosophy **Marxism and Philosophy in the Twentieth Century** Richard Hudelson, 1990-09-25 This book provides a guide to fundamental issues in 20th century Marxist thought Outlining the two distinct and incompatible critiques of vulgar Marxism Marxist Leninist and humanistic Marxism that gained prominence in the aftermath of World War I this book presents both an historical overview of these two dominant traditions and a critical analysis of their philosophical roots With a careful critique of these prevailing views the author presents his own view which while receptive to the social scientific work of current analytical Marxism deemphasizes the importance of philosophy in the study of Marxism **The Philosophy of Marx** Etienne Balibar, 2007-09-17 Providing a lucid and accessible introduction to Marx complete with pedagogical boxes a chronology and guides to further reading Etienne Balibar makes the most difficult areas of his philosophy easy to understand One of the most influential French philosophers to have emerged from the 1960s Balibar brings a lifetime of study and expertise to create a brilliantly concise portrait of Marx that will initiate the student and intrigue the scholar He examines all the key areas of Marx s writings including his early works The Communist Manifesto The German Ideology and Capital explaining their wider historical and

theoretical context Making clear such concepts as class struggle ideology humanism progress determinism commodity fetishism and the state Balibar includes brief yet incisive biographical studies of key Marxists such as Althusser Gramsci Engels and Lenin The Philosophy of Marx will become the standard guide to Marx's thought **How to Be a Marxist in Philosophy** Louis Althusser, 2017-11-16 In *How to Be a Marxist in Philosophy* one of the most famous Marxist philosophers of the 20th century shares his concept of what it means to function fruitfully as a political thinker within the discipline and environs of philosophy This is the first English translation to Althusser's provocative and often controversial guide to being a true Marxist philosopher Althusser argues that philosophy needs Marxism It can't exist fully without it Similarly Marxism requires the rigour and structures of philosophy to give it form and focus He calls all thinking people to Remember a philosopher is a man who fights in theory and when he understands the reasons for this fight he joined the ranks of the struggle of workers and popular classes In short this book comprises Althusser's elucidation of what praxis means and why it continues to matter With a superb introduction from translator and Althusser archivist G M Goshgarian this is a book that will re-inspire contemporary Marxist thought and reinvigorate our notions of what political activism can be **Issues in Marxist Philosophy: Epistemology, science, ideology** John Mepham, David-Hillel Ruben, 1979 This volume emphasises the radical difference between Marx's epistemology and other theories of knowledge *Marxist Philosophy* Viktor Grigor'evich Afanas'ev, 1978 *The Philosophy of Marx* William McBride, 2015-04-24 This book first published in 1977 presents for the first time a serious and systematic assessment of Marx primarily as a philosopher It considers all major aspects of Marx's theory its methodology its ontological dimensions its approaches to the descriptions of history and of societies and their economic structures its alleged predictions and its vision of the future as well as some of its intellectual antecedents and twentieth century heirs The presentation of Marx's ideas attempts to be at once faithful to them as distinguished from their reinterpretations by later Marxists and yet novel in form and language From this unique standpoint the book aims to bring the student of philosophy and of political ideas to a closer understanding of the intellectual foundations of Marx's *Capital* and his writings in collaboration with Engels **Critical Realism and Marxism** Andrew Brown, Steve Fleetwood, John Michael Roberts, 2003-09-02 This book examines the relationship between critical realism and Marxism The authors argue that critical realism and Marxism have much to gain from each other This is the first book to address the controversial debates between critical realism and Marxism and it does so from a wide range of disciplines The authors argue that whilst one book cannot answer all the questions about the relationship between critical realism and Marxism this book does provide some significant answers In doing so *Critical Realism and Marxism* reveals a potentially fruitful relationship deepens our understanding of the social world and makes an important contribution towards eliminating the barbarism that accompanies contemporary capitalism **Rethinking Marx** Shipeng Zou, Xuegong Yang, 2007 *A Critical Examination of Marxist Philosophy* Kalyan Chandra Gupta, 1962 **The History of Philosophy** Alan Woods, Alan Woods outlines the development

of philosophy from the ancient Greeks all the way through to Marx and Engels who brought together the best of previous thinking to produce the Marxist philosophical outlook which looks at the real material world not as a static immovable reality but one that is constantly changing and moving according to laws that can be discovered It is this method which allows Marxists to look at how things were how they have become and how they are most likely going to be in the future in a long process which started with the early primitive humans in their struggles for survival through to the emergence of class societies all as part of a process towards greater and greater knowledge of the world we live in This long historical process eventually created the material conditions which allow for an end to class divisions and the flowering of a new society where humans will achieve true freedom where no human will exploit another no human will oppress another Here we see how philosophy becomes an indispensable tool in the struggle for the revolutionary transformation of society

Marxism and Philosophy Karl Korsch, 2014-07-08 In *Marxism and Philosophy* Korsch argues for a reexamination of the relationship between Marxist theory and bourgeois philosophy and insists on the centrality of the Hegelian dialectic and a commitment to revolutionary praxis Although widely attacked in its time *Marxism and Philosophy* has attained a place among the most important works of twentieth century Marxist theory and continues to merit critical reappraisal from scholars and activists today
