**Psychology in Modules** C. Nathan DeWall, David G. Myers, 2015-01-12 In this version of Psychology 11th Edition David Myers and Nathan DeWall break down the new edition's 16 chapters into 53 modules assignable in any sequence and brief enough to be read in one sitting. It's a format favoured by a wide range of students and instructors, one that's supported by substantial research showing that students working with shorter reading assignments develop a deeper understanding of the material. The book can be purchased with the breakthrough online resource LaunchPad, which offers innovative media content curated and organised for easy assignability. LaunchPad's intuitive interface presents quizzing, flashcards, animations, and much more to make learning actively engaging.

Archaeology and Modernity Julian Thomas, 2004-03-01 This is the first book-length study to explore the relationship between archaeology and modern thought, showing how philosophical ideas that developed in the seventeenth to nineteenth centuries still dominate our approach to the material remains of ancient societies. Addressing current debates from a new viewpoint, *Archaeology and Modernity* discusses the modern emphasis on method rather than ethics or meaning, our understanding of change in history and nature, the role of the nation-state in forming our views of the past, and contemporary notions of human individuality, the mind, and materiality.

Proceedings of the Twentieth Annual Conference of the Cognitive Science Society Morton Ann Gernsbacher, Sharon J. Derry, 2022-05-16 This volume features the complete text of the material presented at the Twentieth Annual Conference of the Cognitive Science Society. As in previous years, the symposium included an interesting mixture of papers on many topics from researchers with diverse backgrounds and different goals, presenting a multifaceted view of cognitive science. This volume contains papers, posters, and summaries of symposia presented at the leading conference that brings cognitive scientists together to discuss issues of theoretical and applied concern. Submitted presentations are represented in these proceedings as long papers (those presented as spoken presentations and full posters at the conference) and short papers (those presented as abstract posters by members of the Cognitive Science Society).
