Women, Gender, and Print Culture in Eighteenth-Century Britain Temma Berg, Sonia Kane, 2013-10-03 This edited collection a tribute to the late noted eighteenth century scholar Betty Rizzo testifies to her influence as a researcher writer teacher and mentor The essays written by a range of established and younger eighteenth century specialists expand on the themes important to Rizzo the importance of the archive the contributions of women writers to the canon of eighteenth century literature and to an emerging print culture the sometimes fraught relations within the eighteenth century family the relationship between life and literature and finally the role of female companionship in women s lives Divided into three sections Living in the Eighteenth Century Novel Living in the Eighteenth Century World and Afterlives the fourteen essays that form the body of the collection treat such topics as epistolarity fraternal relations in novels and in families women and travel in Jane Austen s novels the pleasures and challenges of searching through archives to understand the complex entanglements of eighteenth century families the changing reception of Alexander Pope s poetry and intersections among race class gender and sexuality in a famous early nineteenth century Scottish libel case The final essay of the fourteen connects the archetypal eighteenth century figure of the seduced and

abandoned woman to Sophie Calle's 2007 Venice Biennale exhibition entitled *Take Care of Yourself* which the author reads as a direct descendant of the eighteenth century letter novel. The book is framed by an introduction that situates the book as part of the ongoing redefinition of the archive of eighteenth century literature and an afterword that gives a personal account of Rizzo's career and her indelible legacy as friend, mentor, and professional model. The contributors use a variety of methods in their scholarship but a common strand is archival research and close reading inflected by feminist analysis. The book will appeal to students and scholars of eighteenth century British literature and culture and to those interested in women's writing and women's relationships in the eighteenth century and today and in feminist literary history. The contributors to the volume practice the kind of scholarship Rizzo was known for: painstaking archival research and attention to the nuances of relationships among eighteenth century women and men and in so doing shed new light on a number of familiar and not so familiar eighteenth century texts.

An Essay on the Art of Ingeniously Tormenting Jane Collier, 2003-08-12

Perhaps the first extended non-fiction prose satire written by an English woman. Jane Collier's *An Essay on the Art of Ingeniously Tormenting* (1753) is a wickedly satirical send-up of eighteenth century advice manuals and educational tracts. It takes the form of a mock advice manual in which the speaker instructs her readers in the arts of tormenting, offering advice on how to torment servants, humble companions, and spouses, and on how to bring one's children up to be a torment to others. The work's satirical style, which focuses on the different kinds of power that individuals exercise over one another, follows in the footsteps of Jonathan Swift and paves the way for Jane Austen. This Broadview edition uses the first edition, the only edition published during the author's lifetime. The appendices include excerpts from texts that influenced the essay by Sarah Fielding.

Jonathan Swift Francis Coventry excerpts from later texts that were influenced by it by Maria Edgeworth Frances Burney Jane Austen and relevant writings on education and conduct by John Locke George Savile Dr John Gregory

One Great Family: Domestic Relationships in Samuel Richardson's Novels Simone Höhn, 2021-01-25 This study examines concepts of morality and structures of domestic relationships in Samuel Richardson's novels situating them in the context of eighteenth century moral writings and reader reactions Based on a detailed analysis of Richardson's work this book maintains that he sought both to uphold hierarchical concepts of individual duty and to warn of the consequences if such hierarchies were abused In his final novel Richardson aimed at a synthesis between social hierarchy and individual liberty patriarchy and female self fulfilment His work albeit rooted in patriarchal values paved the way for proto feminist conceptions of female character

The Eighteenth-century Novel and the Secularization of Ethics Carol Ann Stewart, 2010-01-01 Linking the decline in Church authority in the late seventeenth and early eighteenth centuries with the increasing respectability of fiction Carol Stewart provides a new perspective on the rise of the novel The resulting readings of novels by authors such as Samuel Richardson Sarah Fielding Frances Sheridan Charlotte Lennox Tobias Smollett Laurence Sterne William Godwin and Jane Austen shed light on the literary marketplace and the status of writers

Women's Literary Education, c. 1690-1850 Jessica Lim, Louise Joy, 2022-12-06 The essays in this volume reveal the complex various sometimes contradictory and often significant ways in which female literary authors interrogated and advanced educational philosophy and practice during the long eighteenth century reaching back to the last decade of the seventeenth century and forward into the first half of the nineteenth century The collection draws out how long eighteenth century discourses of education shaped what it meant for women to write and how women writers shaped long eighteenth century discourses of education spotlighting the influence of female authors on eighteenth century debates about education as they are conducted in and through literary form By identifying a discernible tradition of women's educational literature and in doing so restoring female writers to the centre of the stage this book adds its voice to existing scholarly efforts to correct the ongoing critical tendency to marginalise the contribution of women to the history of educational thought
