Religious Intellectual History Of Th:

The Rise of the Early Christian Intellectual Lewis Ayres, H. Clifton Ward, 2020-05-05 The study of the growth of early Christian intellectual life is of perennial interest to scholars This volume advances discussion by exploring ways in which Christian writers in the second century did not so much draw on Hellenistic intellectual traditions and models as they were inevitably embedded in those traditions The volume contains papers from a seminar in Rome in 2016 that explored the nature and activity of the emergent Christian intellectual between the late first century and the early third century The papers show that Hellenistic scholarly cultures were the milieu within which Christian modes of thinking developed At the same time the essays show how Christian thinkers made use of the cultures of which they were part in distinctive ways adapting existing traditions because of Christian beliefs and needs The figures studied include Papias from the early part of the second century Tatian Irenaeus and Clement of Alexandria from the later second century One paper on Eusebius of Caesarea explores the Christian adaptation of Hellenistic scholarly methods of commentary Christian figures are studied in the light of debates within Classics and Jewish studies *The Comprehensive History of England, Civil and Military, Religious, Intellectual, and Social, Form the Earliest Period to the Suppression of the Sepoy Revolt* Charles Macfarlane, Thomas Thomson, 1867

Judaeo-Christian Intellectual Culture in the Seventeenth Century A.P. Coudert, S. Hutton, R.H. Popkin, G.M. Weiner, 2013-03-07 MURIEL MCCARTHY This volume originated from a seminar organised by Richard H Popkin in Marsh s Library on July 7 8 1994 It was one of the most stimulating events held in the Library in recent years Although we have hosted many special seminars on such subjects as rare books the Huguenots and Irish church history this was the first time that a seminar was held which was specifically related to the books in our own collection It seems surprising that this type of seminar has never been held before although the reason is obvious Since there is no printed catalogue of the Library scholars are not aware of its contents In fact the collection of books by late seventeenth and early eighteenth century European authors on for example such subjects as biblical criticism political and religious controversy is one of the richest parts of the Library s collections Some years ago we were informed that of the 25 000 books in Marsh s at least 5 000 English books or books printed in England were printed between 1640 and 1700 Seeing Things Their Way Alister Chapman, John Coffey, Brad Stephan Gregory, 2009 Editors and contributors urge intellectual historians to explore the religious dimensions of ideas and commend the methods of intellectual history to historians of religion What is Intellectual History? Richard Whatmore, 2016-05-18 What is intellectual history Those who practice intellectual history have described themselves as eavesdroppers upon the conversations of the past explorers of alien ideological worlds and translators between historic societies and our own while their critics have often derided them as narrow minded studying the ideas of dead white men Some consider the discipline to be among the most important in the humanities and social sciences because it facilitates a better understanding of contemporary ideological programmes and facilitates their rational evaluation In this engaging and

refreshing introduction to the field Richard Whatmore begins by examining the historical development of intellectual history before dissecting its various methodological debates He presents various alternative ways in which we should think about intellectual history as well as presenting his own very clear definition of the field Drawing on a wide range of historical examples Whatmore shows how ideas philosophical political religious scientific artistic originated in their historical context and how they were both shaped by and helped to shape the societies in which they originated He ends by casting a critical eye over the current state of intellectual history and a brief discussion of how it might develop in the future What is Intellectual History will become an essential textbook for scholars and students of intellectual history philosophy politics and the humanities

A Companion to Intellectual History Richard Whatmore, Brian Young, 2015-11-06 A Companion to Intellectual History provides an in depth survey of the practice of intellectual history as a discipline Forty newly commissioned chapters showcase leading global research with broad coverage of every aspect of intellectual history as it is currently practiced Presents an in depth survey of recent research and practice of intellectual history Written in a clear and accessible manner designed for an international audience Surveys the various methodologies that have arisen and the main historiographical debates that concern intellectual historians Pays special attention to contemporary controversies providing readers with the most current overview of the field Demonstrates the ways in which intellectual historians have contributed to the history of science and medicine literary studies art history and the history of political thought Named Outstanding Academic Title of 2016 by Choice Magazine a publication of the American Library Association *The Contemporary Evolution of Religious Thought in England, America and India* comte Eugène Goblet d'Alviella, 1885 **Journal of the Royal Asiatic Society of Great Britain and Ireland**, 1912 **The Calcutta Review**, 1897 **Announcements and Catalogue** University of Mississippi, 1901 **The Hibbert Journal** Lawrence Pearsall Jacks, George Dawes Hicks, 1922
