

A Novel

The book cover is a collage of historical and personal elements. At the top, a woman with blonde hair, wearing a white lace bonnet and a floral dress, looks directly at the viewer with a somber expression. The background is a sepia-toned map of a coastline. In the lower-left corner, a piece of aged paper contains handwritten text in cursive. A quill pen lies across the bottom of the page, and a circular object, possibly a lens or a coin, is visible in the bottom right corner.

The Reluctant Immigrant Mary Neville, 2015-06-08 The Reluctant Immigrant was written to help readers understand what it can really feel like to be an immigrant in a strange new country far away from home Many immigrants seeking the opportunity of a better life or a safer life arrive on American shores not able to speak the English American language The immigrant in this story however was English and had not expected to ever leave her homeland an event which led to her life changing dramatically Life in London her birth city and where she was brought up was exciting beautiful and full of the richness of its history and culture During the sixties word went out from large American Corporations looking to employ highly qualified scientists it was called the Brain Drain and her husband qualified Perplexed and heavy hearted she forced herself through the process of dismantling her London home and tearing her children away from sad aging relative and friends It was never an adventure but a duty Gradually the homesickness of the early years began to subside but feeling dismally equipped to embrace this unwanted adventure she decided that some serious history lessons were necessary Piecing together the historical underpinnings of each new state city and town where she made a home naturally brought frequent connections to her own homeland and provided the link and the bridge that brought her curiosity and appreciation of both pieced into play leading to exciting success [A Reluctant Immigrant](#) Felizitas Sudendorf, 2012-10-30 [The Very Reluctant Immigrant](#) Agnes Jelhof Jensen, 2005-01-01 **Writing/Righting History: Twenty-Five Years of Recovering the US Hispanic Literary Heritage** Antonia Castañeda, Clara Lomas, 2019-04-30 The tenth volume in the Recovering the US Hispanic Literary Heritage Series this collection of essays reflects on the twenty fifth anniversary of the project s efforts to locate identify preserve and disseminate the literary contributions of US Latinos from the Spanish Colonial Period to contemporary times Essays by scholars recalling the beginnings of the project cover a wide range of topics origins identity archival research institutional politics and pedagogy From recollections about funding to personal reminiscences the recovery of Jewish Hispanic heritage and the intellectual project of reframing American history and literature these articles provide a fascinating look at twenty five years of recovering the written legacy of the Hispanic population in what has become the United States An additional nineteen scholarly essays speak to specific efforts to recover an extremely diverse Latino literary heritage Historians and literary critics who research Spanish English and Sephardic texts examine a broad array of subjects including colonialism historical populations exile and immigration This far reaching book is required reading for those studying US Latino history and literature *The Places of Modernity in Early Mexican American Literature, 1848-1948* José F. Aranda Jr., 2022-02 2023 Choice Outstanding Academic Title In *The Places of Modernity in Early Mexican American Literature 1848-1948* Jos F Aranda Jr describes the first one hundred years of Mexican American literature He argues for the importance of interrogating the concept of modernity in light of what has emerged as a canon of earlier pre 1968 Mexican American literature In order to understand modernity for diverse communities of Mexican

Americans he contends one must see it as an apprehension both symbolic and material of one settler colonial world order giving way to another more powerful colonialist but imperial vision of North America Letters folklore print culture and literary production demonstrate how a new Anglo American political imaginary revised and realigned centuries old discourses on race gender class religion citizenship power and sovereignty The modern Aranda argues makes itself visible in cultural productions being foisted on a conquered people who were themselves beneficiaries of a notion of the modern that began in 1492 For Mexican Americans modernity is less about any particular angst over global imperial designs or cultures of capitalism and more about becoming the subordinates of a nation building project that ushers the United States into the twentieth century
