Marriage with a Deceased Wife's Sister Roundell Palmer Earl of Selborne, 1873

My Wife and My Wife's Sister Elizabeth Wormeley Latimer, 1881

Companions Without Vows Betty Rizzo, 2008-09-01

Companions Without Vows is the first detailed study of the companionate relationship among women in eighteenth century England a type of relationship so prevalent that it was nearly institutionalized Drawing extensively upon primary documents and fictional narratives Betty Rizzo describes the socioeconomic conditions that forced women to take on or to become companions and examines a number of actual companionate relationships Several factors fostered such relationships Husbands and wives of the period lived largely separate social lives yet decorum prohibited genteel women from attending engagements unaccompanied Also women of position insisted on having social consultants and confidantes Filling this need

were the many well born young women without sufficient funds to live independently Because family money and property were concentrated in the hands of eldest sons these women frequently had to seek the protection of female benefactors for whom they performed unpaid nonmenial tasks such as providing a hand at cards or simply offering pleasant company The companionate relationship between women could assume many forms Rizzo notes It was often analogous to marriage with one partner dominant and the other subservient while some women experimented in establishing partnerships that were truly egalitarian Rizzo explores these various types of relationships both in real life and in fiction noting that much of the period s discourse about women s relationships can be seen as a tacit commentary on marriage Provocative and engagingly written this authoritative work casts new light on women s attempts to deal with a patriarchal power structure and offers new insight into eighteenth century social history Stories.
