Remember Creation

Scott Hozzee

Remember Creation:

Remember Creation Scott Hoezee, 1998 Why is it that many Christians find a theological scientific debate about creation's ancient origins far more engaging than a speech about how to live responsibly in the creation today Are we more fascinated by academic debates that focus our gaze on what happened long ago than by the hands on discussions that focus our gaze on the world of wonders outside our windows right now In *Remember Creation* Scott Hoezee challenges readers to make today's world more central to the Christian faith by enjoying and preserving God's cosmos as a part of daily discipleship Solidly grounded in a wealth of Scripture passages this book reveals God's ecology of praise which all Christians should want to explore and preserve Throughout the book Hoezee also offers suggestions to help congregations families and all Christians to take more delight in God's world while working to keep alive the wonders that bring God joy Scott Hoezee adds a refreshing new twist to the discussion on the environment Shouldn't we start by simply enjoying creation and honoring it for what it is With illustrations both biblical and personal Hoezee makes a compelling case Philip Yancey

Remembering Augustine Christine F. Stephenson, 2025-12-11 Augustine recognized memory to be pivotal in his journey to remember and know God His theology of memoria is intriguingly complex and profound An architectonic study of Augustinian memory reveals in greater depth Augustine's logical and deeply personal approach to his interrogation of memory Following Augustine's lead this book has co-opted a transdisciplinary approach where Augustinian memory is explicated incorporating different specialisms This is not a theology versus science text it is a blending of the two where each ungirds the other As such architectonics has unveiled four main neoteric discoveries that have made some of Augustine's paradoxes regarding memory less enigmatic First an architectonic structure of memory elucidating the symphonic forms and fundamental affordances of memory in Conf X and earlier writings Second the insights from the examination of Augustinian memory and Arc a unique memory gene Third a model for the simultaneity of the three cardinal moments of time creation incarnation eternity with temporal time past present future and physical time illustrated by the Arc gene Fourth the theory of recapitulation where Conf XIII recapitulates I XII viewed through creation and other motifs in Confessiones It is hoped that this book will provoke a new way of thinking about Augustinian memory a rethinking of Augustine's theology of memoria

Joining Creation's Praise Brian Brock, 2025-08-19 In the beginning God created Thus begins the Bible's story of a long conversation between God and creatures one in which humans are often the least edifying contributors They need to learn what it means to confess themselves creatures if they are to begin to understand what it means to be human and how to live *Joining Creation's Praise* a major statement by a leading Christian ethicist shows how confessing that we are creatures deeply reshapes every aspect of Christian thinking and living Human beings are made to embody Christ's image in the world not as dominators but as conduits of divine life In this comprehensive yet clear volume of theological ethics Brian Brock follows the first few chapters of Genesis in order to discover the things that the sages of Israel took to be crucial for the
