Remembering Jewish Amsterdam:

Remembering Jewish Amsterdam Philo Bregstein, Johanna Katherina Barends, 2004 This book consists of fragments of 77 interviews with Holocaust survivors who talk about their life in Amsterdam before the war The authors use this rich material to compose a collective mosaic of memories that provide a fascinating view of Jewish life in Amsterdam during the years between 1900 and 1940 By dividing the material into chapters dealing with such topics as professions religion housing conditions emancipation Jews and Gentiles and immigration it becomes clear how many opinions on these subjects existed within the community Amsterdam from the 17th century until the German occupation in 1940 and shows that for centuries it was one of the most important community in Western Europe While the Holocaust which claimed the lives of three quarters of the Amsterdam Jews casts a shadow over the memories of the interviewees these testimonies re create the spirit of time and place and present a vivid picture of a little known past erased by war *Individuals and Small Groups in Jewish Resistance to the Holocaust* Ben Braber, 2022-04-12 This book aims to increase our knowledge and deepen the understanding of Jewish resistance to the Holocaust by examining personal circumstances and characteristics of Jewish resistance members and the formation of small Jewish resistance groups It is a carefully researched case study which examines primary and secondary sources including evidence from interviews with resistance members and documentary evidence previously unavailable in English It uses a qualitative analysis to investigate individual and small group manifestations of Jewish resistance during the German occupation of the Netherlands between 1940 and 1945 This study contributes to historiography but its focus enables a different interpretation and displays a new view of history It is a scholarly work but also accessible for the general reader interested in this subject [Leaving the Jewish Fold](#) Todd Endelman, 2015-02-22 Between the French Revolution and World War II hundreds of thousands of Jews left the Jewish fold by becoming Christians or in liberal states by intermarrying Telling the stories of both famous and obscure individuals *Leaving the Jewish Fold* explores the nature of this drift and defection from Judaism in Europe and America from the eighteenth century to today Arguing that religious conviction was rarely a motive for Jews who become Christians Todd Endelman shows that those who severed their Jewish ties were driven above all by pragmatic concerns especially the desire to escape the stigma of Jewishness and its social occupational and emotional burdens Through a detailed and colorful narrative Endelman considers the social setting national contexts and historical circumstances that encouraged Jews to abandon Judaism and factors that worked to the opposite effect Demonstrating that anti Jewish prejudice weighed more heavily on the Jews of Germany and Austria than those living in France and other liberal states as early as the first half of the nineteenth century he reexamines how Germany's political and social development deviated from other European states Endelman also reveals that liberal societies such as Great Britain and the United States which tolerated Jewish integration promoted radical assimilation and the dissolution of Jewish ties as often as hostile illiberal societies such as Germany and Poland from dust jacket [Dutch](#)

Racism Philomena Essed, Isabel Hoving, 2014-03-01 Dutch Racism is the first comprehensive study of its kind The approach is unique not comparative but relational in unraveling the legacy of racism in the Netherlands and the former colonies Authors contribute to identifying the complex ways in which racism operates in and beyond the national borders shaped by European and global influences and intersecting with other systems of domination Contrary to common sense beliefs it appears that old fashioned biological notions of race never disappeared At the same time the Netherlands echoes if not leads a wider European trend where offensive statements about Muslims are an everyday phenomenon Dutch Racism challenges readers to question what happens when the moral rejection of racism loses ground The volume captures the layered nature of Dutch racism through a plurality of registers methods and disciplinary approaches from sociology and history to literary analysis art history and psychoanalysis all different elements competing for relevance truth value and explanatory power This range of voices and visions offers illuminating insights in the two closely related questions that organize this book what factors contribute to the complexity of Dutch racism And why is the concept of racism so intensely contested The volume will speak to audiences across the humanities and social sciences and can be used as textbook in undergraduate as well as graduate courses Philomena Essed is professor of Critical Race Gender and Leadership studies Antioch University USA PhD in Leadership and Change Program Her books and edited volumes include Everyday Racism Understanding Everyday Racism Race Critical Theories A Companion to Gender Studies outstanding 2005 CHOICE award and Clones Fakes and Posthumans Cultures of Replication Isabel Hoving is diversity officer at the Leiden University and affiliated with the Department of Film and Literary Studies of Leiden University Her books include In Praise of New Travellers Veranderingen van het alledaagse and several other volumes on migration Caribbean literatures African literature and art In addition to her academic work she is an awarded youth writer

This Cannot Happen Here Ben Braber, 2025-10-01 How did the integration of Jews into Dutch society influenced Jewish resistance during the German occupation of the Netherlands in the Second World War In this book Ben Braber answers the question how the integration of Jews into Dutch society influenced Jewish resistance during the German occupation of the Netherlands in the second world war This study highlights the social position of Jews and their group characteristics but also reviews other factors that determined what forms Jewish resistance took such as personal character and individual circumstance This is the first comprehensive study of this subject in the English language of Jewish resistance in the Netherlands It offers a new perspective on Jews during the Holocaust and counters the prejudice about Jews failing to resist persecution This book is also relevant for today's multi ethnic society It is a case study about the hampered integration of a minority in particular how people in this group react when they are forcefully segregated and persecuted while thinking this cannot happen here

Histories of Health Paul Puschmann, Sanne Muurling, Tim` Riswick, Jan Kok, 2025-09-01 Over the past two and a half centuries the global population has witnessed significant improvements in health and longevity with life expectancy at birth more than doubling in many regions This transformation ranks among the

greatest achievements in human history This volume brings together studies that reveal the complexity behind this transformation and provide a broad exploration of how these histories of health have evolved across different social and geographic contexts The contributions explore how mortality and morbidity were recorded understood and experienced focusing on the roles of social class migration status and sex as well as demographic shifts and local conditions in shaping patterns of infant childhood and adult mortality Collectively these studies demonstrate that the history of health cannot be understood as a straightforward narrative of continuous linear progress Instead they demonstrate it is a multifaceted process marked by societal challenges unequal access to resources and ongoing efforts by individuals and communities to adapt and survive in a changing world
