## **Mustard Cookbook:**

Mustard Cookbook Ivy Hope,2020-07-23 Many people forget where mustard comes from They think of mustard and think of the yellow bottle that they simply have to squeeze However do not forget that mustard comes from plants and grows in the ground We will talk about it some more in the introduction and even teach you how to grow your own mustard if you wish Going back to mustard and our love for it I absolutely love mustard on my hot dogs and I do not think I am alone that it is kind of a cliché meal I also truly enjoy mustard in my sandwiches it is either roast beef or ham With my pork chops I prefer Dijon mustard and nothing like a honey mustard salad dressing on my next bowl of greens In this cookbook you will be offered so many different recipes We will help you create your own very unique flavored mustard which you can use as you wish with the dishes you love or simply as a dipping sauce Do not forget that you can mix the mustard with mayonnaise and create a softer spread for your sandwiches and appetizers What else would you like to know about mustard No matter what it is I bet it is in this book and we are excited to share it with you
