Food Justice Now! Joshua Shicca, 2018-07-31 A rallying cry to link the food justice movement to broader social justice debates The United States is a nation of foodies and food activists many of them progressives and yet their overwhelming concern for what they consume often hinders their engagement with social justice more broadly Food Justice Now charts a path from food activism to social justice activism that integrates the two It calls on the food focused to broaden and deepen their commitment to the struggle against structural inequalities both within and beyond the food system In an engrossing historically grounded and ethnographically rich narrative Joshua Shicca argues that food justice is more than just a myopic focus on food allowing scholars and activists alike to investigate the causes behind inequities and evaluate and implement political strategies to overcome them Focusing on carceral labor and immigration crises Shicca tells the stories of three California based food movement organizations showing that when activists use food to confront neoliberal capitalism and institutional racism they can creatively expand how to practice and achieve food justice Shicca sets his central argument in opposition to apolitical and individual solutions discussing national food movement campaigns and the need for economically and racially just food policies a matter of vital public concern with deep implications for building collective power across a diversity of interests

A Wilderness Zone Walter Brueggemann,2021-11-17 In these several pieces I have worked to trace out possible interfaces between specific scripture references and matters at the forefront of our common social life It is my hunch that almost without fail such an interface creates a very different angle of vision for any element of our common social life because it situates such a topic in the context of the biblical narrative that is occupied by the holy agency of God Such an alternative angle of vision helps to defamiliarize us from our usual discernment according to the master narrative of democratic capitalism that is most widely shared across the spectrum of conservatives and progressives Because our common angle of vision shared by progressives and conservatives has a very low ceiling of human ultimacy we all of us easily come to think that our particular reading of social reality is absolute and beyond question even if dominated by a tacit ideology It is my bet that an interface with biblical testimony can and will deabsolutize our excessive certitude and permit us to look again at the social facts that are in front of us I do not think and do not suggest that such interfaces with scripture are inevitable they are rather suggestive impressionistic and fleeting the kind of linkage that is available in the matrix of faith that is not fixed on certitude
