## **Radar Resolution And Compleximage Analysis:**

Radar Resolution and Complex-image Analysis August W. Rihaczek, Stephen J. Hershkowitz, 1996 Target identification and other modern day radar problems can't be solved by conventional radar technology but they can be solved with the ground breaking signal processing and analysis methods presented in this unique expertly authored book **Signal and Image Processing for Remote Sensing** C.H. Chen, 2012-02-22 Continuing in the footsteps of the pioneering first edition *Signal and Image Processing for Remote Sensing* Second Edition explores the most up to date signal and image processing methods for dealing with remote sensing problems Although most data from satellites are in image form signal processing can contribute significantly in extracting info *Algorithms for Synthetic Aperture Radar Imagery*, 1999 Theory and Practice of Radar Target Identification August W. Rihaczek, Stephen J. Hershkowitz, 2000 Learn target identification technology and practices designed to solve today's real world radar challenges with this one of a kind book Based on novel theory and fundamentals presented in the authors earlier Artech House book *Radar Resolution and Complex Image Analysis* this new book describes improved technology and methods for implementing target identification solutions applicable to complicated man made targets **Structural Health Monitoring of Civil Infrastructure Systems** Vistasp M. Karbhari, Farhad Ansari, 2009-08-25 Structural health monitoring is an extremely important methodology in evaluating the health of a structure by assessing the level of deterioration and remaining service life of civil infrastructure systems This book reviews key developments in research technologies and applications in this area of civil engineering It discusses ways of obtaining and analysing data sensor technologies and methods of sensing changes in structural performance characteristics It also discusses data transmission and the application of both individual technologies and entire systems to bridges and buildings With its distinguished editors and international team of contributors *Structural health monitoring of civil infrastructure systems* is a valuable reference for students in civil and structural engineering programs as well as those studying sensors data analysis and transmission at universities It will also be an important source for practicing civil engineers and designers engineers and researchers developing sensors network systems and methods of data transmission and analysis policy makers inspectors and those responsible for the safety and service life of civil infrastructure Reviews key developments in research technologies and applications Discusses systems used to obtain and analyse data and sensor technologies Assesses methods of sensing changes in structural performance Complex-Valued Neural Networks: Utilizing High-Dimensional Parameters Nitta, Tohru, 2009-02-28 This book covers the current state of the art theories and applications of neural networks with high dimensional parameters Provided by publisher **Special Design Topics in Digital Wideband Receivers** James B. Y. Tsui, 2010 Offering engineers a thorough examination of special more advanced aspects of digital wideband receiver design this practical book builds on fundamental resources on the topic helping you gain a more comprehensive understanding of the subject This in depth volume presents a detailed look at a complete receiver design

including the encoder Moreover it discusses the detection of exotic signals and provides authoritative guidance on designing receivers used in electronic warfare From frequency modulation and biphasic shifting keys to parameter encoders in electronic warfare receivers and the use of the simulation and probability density function to predict the false alarm parameter this book focuses on critical topics and techniques that help you design digital wideband receivers for top performance The authoritative reference is supported with over 310 illustrations and more than 180 equations **Radar Processing, Technology, and Applications**, 1998 **Proceedings**, 2004 **Image and Signal Processing for Remote Sensing**, 2003 **Millimeter-wave and Infrared Multisensor Design and Signal Processing** Lawrence A. Klein, 1997 Here s a practical non theoretical introduction to the principles applications and benefits of multi sensor technology used in smart weapon development surveillance systems and an increasing variety of non military applications This book provides a broad overview of MMW millimeter wave and IR infrared sensor constraints design principles system alternatives and targeting applications and is unique in its coverage of integrated MMW and IR multisensor design
