Responsive Open Learning Environments Sylvana Kroop,Alexander Mikroyannidis,Martin Wolpers,2015-01-07 This book presents the outcomes of four years of educational research in the EU supported project called ROLE Responsive Online Learning Environments ROLE technology is centered around the concept of self regulated learning that creates responsible learners who are capable of critical thinking and able to plan their own learning processes ROLE allows learners to independently search for appropriate learning resources and then reflect on their own learning process and progress To accomplish this ROLE s main objective is to support the development of open personal learning environments PLE s ROLE provides a framework consisting of enabler spaces on the one hand and tools content and services on the other Utilizing this framework learners are invited to create their own controlled and preferred learning environments to trigger and motivate self regulated learning Authors of this book are researchers developers and teachers who have worked in the ROLE project and belong to the ROLE partner consortium consisting of 16 internationally renowned research institutions including those from 6 EU countries and China Chapters include numerous practical tutorials to guide the reader in creating innovative and useful learning widgets and present the best practices for the development of PLE s *Scottish Libraries* ,1989 The Open Learning Handbook Phil Race,1989 **Korea Observer** ,2000 British Education Index ,1991 *What is Open Learning?* Roger Lewis,Doug Spencer,1986 **Education and Training for the Workforce: the Role of Open Learning** Open Learning Agency (Richmond, B.C.),1997 **Open Learning Cultures** Ulf-Daniel Ehlers,2016-08-23 Today we are seeing a new form of blended learning not only is technology enhancing the learning environment but formal and informal learning are combining and there is self and peer assessment of results Open learning cultures are challenging the old and long practiced methods used by educators and transforming learning into a more student driven and independent activity which uses online tools such as blogs wikis or podcasts to connect resources students and teachers in a novel way While in higher education institutions most assessments are still tied to formal learning scenarios teachers are more and more bound to recognize their students informal learning processes and networks This book will help teachers lecturers and students to better understand how open learning landscapes work how to define quality and create assessments in such environments and how to apply these new measures To this end Ehlers first elaborates the technological background for more collaborative distributed informal and self guided learning He covers the rise of social media for learning and shows how an architecture of participation can change learning activities These new paradigms are then applied to learning and education to outline what open learning landscapes look like Here he highlights the shift from knowledge transfer to competence development the increase in lifelong learning and the importance of informal learning user generated content and open educational resources He then shows how to manage quality by presenting a step by step guide to developing customized quality

concepts for open learning landscapes Finally several methods dealing with assessment in these new environments are presented including guidelines templates and use cases to exemplify the approaches Overall Ehlers argues for assessment as an integral part of learning processes with quality assurance as a method of stimulating a quality culture and continuous quality development rather than as a simple controlling exercise **Media in Education and Development** ,1986
