Werner Bonefeld, Richard Gunn, John Holloway, Kosmas Psychopedis, 1995-06-01 Open Marxism Werner Bonefeld, Richard Gunn, Kosmas Psychopedis, 1993-01-01 **Global Restructuring, State, Capital and Labour** A. Bieler, W. Bonefeld, P.

Burnham, A. Morton, 2006-04-26 This book provides a critical engagement between contending historical materialist approaches that have played a crucial role in shaping post positivist International Relations theory It analyzes globalization as a process of state formation and argues that its fate depends on the neo liberal recomposition of labour relations

*Historical Materialism and Globalisation* Mark Rupert, Hazel Smith, 2016-04-29 Now that Soviet style socialism has collapsed upon itself and liberal capitalism offers itself as the natural necessary and absolute condition of human social life on a worldwide scale this book insists that the potentially emancipatory resources of a renewed and perhaps reconstructed historical materialism are more relevant in today's world than ever before Rather than viewing global capitalism as an eluctable natural force these essays seek to show how a dialectic of power and resistance is at work in the contemporary global political economy producing and contesting new realities and creating conditions in which new forms of collective self determination become thinkable and materially possible It will be vital topical reading for anyone interested in international relations international political economy sociology and political theory *Illusion and Fetishism in Critical Theory* Vasilis Grollios, 2023-12-01 Through the negative dialectics of Theodore Adorno *Illusion and Fetishism in Critical Theory* offers an examination of Nietzsche Benjamin Castoriadis and the Situationists who put the concept of illusion at the forefront of their philosophical thought Vasilis Grollios argues that these political philosophers except Castoriadis have up to now been wrongly considered by many scholars to be far from the line of thinking of negative dialectics Critical Theory and the early Frankfurt School Open Marxist tradition He illustrates how these thinkers focused on the illusions of capitalism and attempted to show how capitalism by its innate rationale creates social forms that are presented as unavoidable and universal yet are historically specific and of dubious sustainability Providing a unique overview of concepts including illusion totality fetishization contradiction identity thinking and dialectics Grollios expertly reveals how their understanding of critique can help us open cracks in capitalism and radicalize democratic social practice today *Illusion and Fetishism in Critical Theory* is a must read for scholars of political theory and political philosophy critical theory the Frankfurt School

sociology and democratic theory     *Open Marxism: Theory and practice* Werner Bonefeld, Richard Gunn, Kosmas Psychopedis, 1992 Through a series of interconnected articles this book makes available a range of international authors for an English readership Topics covered include Marxism and political economy historical materialism dialectics state theory class crisis fetishism and the periodization of capitalist development     *Prefiguring the Idea of the University for a Post-Capitalist Society* Gary Saunders, 2023-12-06 Using an Open Marxist theoretical framework this book provides a critique of the neoliberal reforms made to higher education since the late 1970s and the impact this has had on the sector Rather than arguing for a return to the idea of the public university the book argues that public and private models of higher education are both forms of capitalist accumulation and have historically perpetuated forms of oppression exploitation and discrimination thus a more radical solution that addresses both the current crisis of higher education and the contradictory and exploitative nature of late capitalism is required This book critically examines the autonomous learning spaces that emerged out of the UK student protests 2009 2010 and documents what can be learned from them to prefigure the idea of the university for a post capitalist society     [Encyclopedia of Critical Political Science](#) Clyde W. Barrow, 2024-03-14 An indispensable and exemplary reference work this Encyclopedia adeptly navigates the multidisciplinary field of critical political science providing a comprehensive overview of the methods approaches concepts scholars and journals that have come to influence the discipline s development over the last six decades     [The Labour Debate](#) Ana C. Dinerstein, Mike Neary, 2002 Through a radical reinterpretation of Marx s social theory the contributors to this unique book revitalize the concept and reality of labour as the fundamental constitutive principle of the social world This refocus is inspired by the real changes in the forms of identity organization and struggle taking place in response to the global restructuring of capitalist work     [The Philosophy of Antonio Negri - Volume One](#) Timothy S. Murphy, Abdul-Karim Mustapha, 2005-05-20 Outstanding contributors include Pierre Macherey Charles Wolfe Alex Callinicos and Judith Revel     **Hegel and Marx** Ian Fraser, 1998 This text introduces the concept of need as viewed by Hegel and Marx and places it within the context of modern need theories and theorists The book works through key texts including Hegel s Philosophy of Right and Marx s Capital and discusses the theory in relation to Soviet Communism and social democracy Covers key texts by Hegel and Marx studied by undergraduates on political theory courses Looks at political implications for modern need theory Accessible author makes good use of textual evidence Need theory is a major element of modern social theory     **An Introduction to Law and Social Theory** Reza Banakar, Max Travers, 2002-08-20 This book written by specialists introduces a range of sociological traditions and how they can be used in investigating law and legal institutions     **The Philosopher's Index** , 1995 An international index to philosophical periodicals     **Towards a Cognitive Mode in Global Finance** Torsten Strulik, Helmut Willke, 2006 The global finance system has been the subject of hot debate for several years Major players such as the International Monetary Fund and the World Bank have come under fire for their financial practices while the role of

epistemic authorities including rating agencies remains unclear This book systematically analyzes the role knowledge plays in global finance reform by considering its influence in the empirical areas of finance banking accounting and bond rating for example As the contributors demonstrate current institutional management strategies reflect a shift toward cognitive or learning based modes of managing financial and political risks and this cognitive thinking has its own consequences for the global marketplace Change the World Without Taking Power John Holloway,2005-06-20 Offers a radical rethinking of Marx s concept of revolution that shows how we can bring about social and political change today **Asian Labour Update**,2004 Open Marxism 4 Ana Cecilia Dinerstein,Alfonso García Vela,Edith González,John Holloway,2019-11-20 The publication of the first three volumes of Open Marxism in the 1990s has had a transformative impact on how we think about Marxism in the twenty first century Open Marxism aims to think of Marxism as a theory of struggle not as an objective analysis of capitalist domination arguing that money capital and the state are forms of struggle from above and therefore open to resistance and rebellion As critical thought is squeezed out of universities and geographical shifts shape the terrain of theoretical discussion the editors argue now is the time for a new volume that reflects the work that has been carried out during the past decade Emphasising the contemporary relevance of open Marxism in our moment of political and economic uncertainty the collection shines a light on its significance for activists and academics today Capital & Class ,2007
