How To Blog For Profit Manuel Rise, 2019-11-08 Do you want to start a blog business working wherever you want and making a lot of money? Perfect, you're in the right place if you want to set everything up properly in your blog. Keep reading. IMPORTANT: this book was not written to promote a live event where I will give you more information. I poured all my knowledge into this book, saving nothing. My name is Manuel Rise, and I am a professional blogger since 2014. Professional blogger means I can live my life blogging. I have a blog more than one in truth, through which I sell a service. Several years have passed since I started writing articles, and the world of blogs has changed a lot. Honestly, it changes every year. So to keep up with the times, every year I attend SEO courses by Google, copywriting, and basically every kind of course related to the world of blogs. Unfortunately, there is no great course on the internet that explains how to build a blog and earn money by selling a product or service. That's why, alongside my business, I decided to write this book. Everything you will find in this book is the result of my experience, and that's what allowed me to leave my job and be able to live only with my blogs. It's not a simple journey; making money with a blog is not a quick process and presents many pitfalls. Making sure that our blog reaches the first pages of Google results is a matter that takes much time and much work. And even if it is so fashionable, earning with your passions is unfortunately not a real matter. You cannot think to earn money only by writing; you always need to sell something, link a product like a service, like an affiliation, etc. In this book, I will try to be as clear as possible and show you how to set everything up properly in your blog and start to make a lot of money.

WHAT YOU WILL FIND IN THIS BOOK

The best ways to make money through your blog, which are not:

- Write your passions and get tons of money.
- Evergreen blog ideas.
- A serious affiliate marketing opportunity.
- How to self-financing.
- How to start a blog step by step.
- The importance of the logo, colors, and design of your blog, which parts are important, and what you have to write in each of them.
- How to define the right target of your readers and understand how to write to attract them to your posts.
- How to always have content fresh to write.
- One of these techniques is crazy, and no one has ever told you.
- Advance copywriting skills to keep the reader glued to your posts.
- How to increase your blog's reputation.
- How to become an authority in your market.
- How to manage your social media profiles.
- Online marketing principles (this course alone costs more than 1 000).
- Advanced SEO techniques to write posts.
- Google loves.
- How to manage Facebook Ads and Google Ads to destroy your competitors forever, and much more.

Don't worry, it's a long process, but nothing hard. You can learn everything.
