The Indonesian Military After the New Order Sukardi Rinakit, 2005 This study identifies the factors behind the Indonesian military's decision to reposition its dominant role in socio political affairs after the fall of Suharto It covers the contestation between the military and the new civilian regime under President Abdurrahman Wahid Gus Dur over its altered role and the military's part behind his fall Finally the military's future role under President Megawati is assessed together with the possibilities of it resuming power The author as a former ghostwriter at the Indonesian Ministries of Home Affairs and Defence has been privy to the internal dynamics of the military and has personally interviewed untouchable figures such as former President Suharto An up to date well informed study providing a useful contribution to the literature particularly with regard to the younger generation of the military

Civil-military Relationship Jonatan Rudolph, 2017-02-01 A Civil military relation describes the relationship between civil society as a whole and the military organization established to protect it More narrowly it describes the relationship between the civil authority of a given society and its military authority Studies of civil military relations often rest on a normative assumption that civilian control of the military is preferable to military control of the state The principal problem they examine however is empirical to explain how civilian control over the military is established and maintained Civil military relations are those interactions between the military and civilian actors that in some way relate to the power to make political decisions Traditionally the study of civil military relations levitated around questions of who is master and who is servant in civil military relations and who guards the guardians of the nation In other words the question of civilian control is at the heart of civil military relations Even though in recent years especially with the fall of the Berlin Wall democratization processes in eastern Europe the enlargement of the North Atlantic Treaty Organization NATO and the proliferation of peace building missions and programs in so called post conflict societies the concept of security sector governance or security sector reform has gained prominence in the academic and policy oriented literature civilian control remains the central issue in civil military relations in emerging democracies The book deeply highlights the civil military relation and its strategies

The ^APower Triangle Hazem Kandil, 2016-08-18 Revolution reform and resilience comprise the respective fortunes of modern Iran Turkey and Egypt Although the countries all experienced coups with remarkably similar ambitions each followed a very different trajectory Iran became an absolutist monarchy that was overthrown from below Turkey evolved into a limited democracy and Egypt turned into a police state

Changes in India's foreign policy towards Pakistan Dr. Nitin Prasad, 2017-02-01 For years the centre of India's foreign policy was Pakistan Love it or hate it This was the country that the external affairs ministry had to break its head over most of the times You can't brush off four

wars 1947-48, 1965, 1971 and 1999 two conflicts Rann of Kutch and Siachen militancy in Kashmir that claimed tens of thousands of lives and terrorist attacks all over India. Pakistan and India literally split on an ideological basis due to the notion of the two nation theory and that Muslims cannot live as a minority in Hindu India. Dispute over Kashmir emphasises this divide and it is still brought up even to this day. India has had to fight 4 wars with Pakistan and since 1980s when Soviets started to get involved in Afghanistan USA and Pakistan started anti Soviet terrorism and Pakistan had the bright idea to use it against India further worsening relations between the two nations especially when military coup has meant that the war hungry military has been in power and this led to the 1965 war and the Kargil War. The foreign policy of Narendra Modi concerns the policy initiatives made towards other states by the current Modi government after he assumed office as Prime Minister of India on 26 May 2014. The Ministry of External Affairs headed by External Affairs Minister Sushma Swaraj the first woman to hold the office since Indira Gandhi is responsible for carrying out the foreign policy of India. Although the book has involved considerable empirical research it is not simply fact finding enterprise. It is also a prescriptive and analytical study intended to create and influence opinion regarding the essentials of policy making process that would minimize the chances of non rationality in Indian Foreign Policy.

Contemporary Portugal Lawrence S. Graham, Harry M. Makler, 1979-05 Despite worldwide interest in the Portuguese Revolution of 1974 Portugal remained for most people a little known and poorly understood country neglected for years by social scientists. Editors Graham and Makler brought together for the first time in one substantive volume most of the leading

social science experts on Portugal The contributors highly original research represents the best work generated by the International Conference Group on Modern Portugal at its two major conferences held in 1973 and 1976 The result is a comprehensive collection of essays discussing in detail the events leading up to the revolution the causes of the military coup and the movement of a society on the brink of revolutionary upheaval toward open democratic parliamentary elections As the first interdisciplinary study to span fifty years of Portuguese history from the Estado Novo of 1926 to the eventual social democratic republic this book stands alone in its field The specialist as well as the general reader will find insights into the dynamics of Portugal s people politics and economics
