Oermann,2008-10-08 The Grand Ole Opry has been home to the greatest legends

of country music for over eighty years and in that time it has seen some of country music's most dramatic stories unfold. We'll hear of the great love stories ranging from Johnny Cash and June Carter in the 1960s to Garth Brooks and Trisha Yearwood who married in 2005. We'll get the truth of the tragedies that led to the loss of three stars all in the same month starting the rumor of the Opry Curse. We'll learn how after being stabbed, shot, and maimed, Trace Adkins calls his early honky-tonk years combat country, and we'll find inspiration from DeFord Bailey, an African American harmonica player in 1927, crippled by childhood polio who rose to fame as one of the first Opry stars. Our hearts will break for Willie Nelson who lost his only son on Christmas Day, and soar for Amy Grant and Vince Gill who found true love. Based on over 150 firsthand interviews with the stars of The Grand Ole Opry, these are stories that tell the heart of country, the lives that are lived, and inspire the songs we love.

Musicological Identities Jacqueline Warwick, 2017-07-05. No music scholar has made as profound an impact on contemporary thought as Susan McClary, a central figure in what has been termed the new musicology. In this volume, seventeen distinguished scholars pay tribute to her work with essays addressing three approaches to music that have characterized her own writings: reassessing music's role in identity formation, particularly regarding gender, sexuality, and race; exploring music's capacity to define and regulate perceptions and experiences of time; and advancing new modes of analysis more appropriate to those aspects and modes of musicking ignored by traditional methods. Contributors include, in overlapping categories, many fellow pioneers, current colleagues, and former students, and their essays, like McClary's own work, address a wide range of repertoires ranging from the established canon to a variety of popular genres. The collection represents the generational arrival of the new musicology into full maturity, dividing fairly evenly between pre-eminent scholars of music and a group of younger scholars who have already made their mark in significant ways. But the collection is also, and fundamentally, interdisciplinary in nature, in active conversation with such fields as history, anthropology, philosophy, aesthetics, media studies, film, music studies, dramatic criticism, women's studies, and cultural studies.

Sound Judgment Richard Leppert, 2023-05-31. The essays in *Sound Judgment* span the full career of Richard Leppert from his earliest to work that appears here for the first time on subjects drawn from early modernity to the present concerning music, both popular and classical, European and North American. Noted for his path-breaking interdisciplinary scholarship on music and visual culture, the collection includes key essays on music's visualization in art practices in virtually all visual media, including film. The fourteen essays comprising this volume demonstrate Leppert's many contributions to critical musicology, particularly in the areas of aesthetics, as well as social and intellectual history, all of it grounded in a heterodox body of critical and cultural theory with the work of Theodor W. Adorno, particularly noteworthy. The collection is preceded by an introduction in which Leppert traces his intellectual development, defined in large part by the social, cultural, and political upheavals of the 1960s and their aftermath, both in the academy and in society at large.
