The Truth and Other Stories Stanislaw Lem, 2021-09-14 Twelve stories by science fiction master Stanislaw Lem nine of them never before published in English Of these twelve short stories by science fiction master Stanislaw Lem only three have previously appeared in English making this the first new book of fiction by Lem since the late 1980s The stories display the full range of Lem's intense curiosity about scientific ideas as well as his sardonic approach to human nature presenting as multifarious a collection of mad scientists as any reader could wish for Many of these stories feature artificial intelligences or artificial life forms long a Lem preoccupation some feature quite insane theories of cosmology or evolution All are thought provoking and scathingly funny Written from 1956 to 1993 the stories are arranged in chronological order In the title story The Truth a scientist in an insane asylum theorizes that the sun is alive The Journal appears to be an account by an omnipotent being describing the creation of infinite universes until in a classic Lem twist it turns out to be no such thing in An Enigma beings debate whether offspring can be created without advanced degrees and design templates Other stories feature a computer that can predict the future by 137 seconds matter destroying spores a hunt in which the prey is a robot and an electronic brain eager to go on the lam These stories are peak Lem exploring ideas and themes that resonate throughout his writing

**Dismantling America and Other Controversial Essays** Thomas Sowell, 2011-03 These wide ranging essays on many individual political economic cultural and legal issues have as a recurring underlying theme the decline of the values and

institutions that have sustained and advanced American society for more than two centuries This decline has been more than an erosion It has in many cases been a deliberate dismantling of American values and institutions by people convinced that their superior wisdom and virtue must over ride both the traditions of the country and the will of the people Whether these essays originally published as syndicated newspaper columns are individually about financial bailouts illegal immigrants gay marriage national security or the Duke University rape case the underlying concern is about what these very different kinds of things say about the general direction of American society This larger and longer lasting question is whether the particular issues discussed reflect a degeneration or dismantling of the America that we once knew and expected to pass on to our children and grandchildren There are people determined that this country s values history laws traditions and role in the world are fundamentally wrong and must be changed Such people will not stop dismantling America unless they get stopped and the next election may be the last time to stop them before they take the country beyond the point of no return
