Life on the Edge Tim Miller, 2016 **Shingle Street: a Study of the Changes which Have Taken Place on this Part of the Suffolk Coast, with Some Suggestions as to Their Cause** Richard Thomas Cobb, 1955 *Sand and Gravel Spits* Giovanni Randazzo, Derek W.T. Jackson, J. Andrew G. Cooper, 2015-04-16 This book draws together a series of studies of spit geomorphology and temporal evolution from around the world The volume offers some unique insights into how these landforms are examined scientifically and how we as humans impact them offering a global perspective on spit genesis and evolution Spits are unique natural environments whose evolution is linked to the adjacent coast and near shore morphology sediment supply coastal dynamics and sea level change Over the past century Global Mean Sea Level GMSL has risen by 10 to 20 centimetres and many coastal spits represent the first sentinel against coastal submersion Scientific research indicates that sea levels worldwide have been rising at a rate of 3.5 millimetres per year since the early 1990s roughly twice the average speed of the preceding 80 years This trend linked to global warming will undoubtedly cause major changes in spit morphology Spits are highly mobile coastal landforms that respond rapidly to environmental change They therefore represent a signature of past environmental change and provide a landform indicator of climate change *Burn the Sea* James Hayward, 2016-02-03 In the whole course of the war conceded Britain's chief press censor there was no story which gave me so much trouble as that of the attempted German invasion flaming oil on the water and 30 000 burned Germans Sparked by the Directorate of Military Intelligence and MI6 rumours that Britain had set fire to the English Channel to defeat a German invasion in 1940 quickly spread around the world Highly popular in America the incendiary Big Lie became Britain's first significant propaganda victory of the Second World War Yet the unlikely deception was founded in fact Dead German soldiers were washed ashore on British beaches a secret Petroleum Warfare Department tested lethal flame barrages on land and sea and fire ships were hastily dispatched to enemy ports as part of Operation Lucid British intelligence agencies even managed to plant the burning sea story on their opposite numbers in Nazi Germany Burn the Sea is the definitive account of the origin circulation and astonishing longevity of the myth of the invasion that failed in 1940 as well as its remarkable revival in 1992 Suffolk Coast and Heath Walks Laurence Mitchell, 2022-05-18 Guidebook to 3 long distance walking routes exploring the varied landscapes of the Suffolk Coast and Heaths AONB The walks described in this book the Suffolk Coast Path the Stour and Orwell Walk and the Sandlings Walk link together to provide a comprehensive and varied circuit of the entire Suffolk Heritage Coast All routes can be walked year round and are suitable for walkers of every ability The Suffolk Coast Path presented in 8 stages stretches along the coast between Lowestoft and Landguard Fort close to Felixstowe in the south a total distance of 60 miles 97km depending on whether beach walking or inland options are followed The Stour and Orwell Walk presented in 5 stages continues where the Suffolk Coast Path ends starting at Landguard Point and threading for 40 miles 64km around the estuaries of the Stour and Orwell rivers to finish at Cattawade close to the Essex

border The Sandlings Walk 59 miles 94 5km is presented in 7 stages and explores the heathland region that lies immediately inland from the Suffolk coast The majority of the route lies entirely within the confines of the Suffolk Coast and Heaths AONB Step by step descriptions for each walk accompanied by 1 50 000 OS mapping Information on local points of interest and comprehensive planning information **Shingle Street** James Hayward,1994 **Hitler's Invasion of East Anglia, 1940**

Martin W. Bowman,2019-12-27 The aviation historian presents a provocative analysis of WWII airborne operations to investigate what happened to Hitler s planned invasion of England Did a German invasion or invasions take place along the shores of East Anglia in 1940 Though Operation Sealion the intended invasion of southern England never materialized Hitler asked his forces to mount one two or even three small invasions in 1940 This raises some provocative questions Were the mass raids on London merely a diversion Why have all the files on this most dramatic period in British history been kept hidden Why have the instances involving setting fire to the sea and skirmishes around our coasts been covered up Martin W Bowman tells the full story of these remarkable events involving British defenders in the Army Home Guard and Auxiliary Units and the invading Nazi military forces This revealing history examines Allied and German airborne operations during the Second World War to piece together a truly riveting narrative It is complimented by an extensive Appendix section and scores of previously unpublished photos **Where to Watch Birds in East Anglia** David Callahan,2020-11-12 A definitive site guide to three of Britain s most bird rich counties Cambridgeshire Norfolk and Suffolk East Anglia the jewel in the crown of British birding The counties of Norfolk Suffolk and Cambridgeshire represent the most popular region for birders and naturalists to visit in the British Isles whether to see wintering flocks of geese and waders rare vagrants scarce breeding birds such as cranes and bitterns or just to soak up the countryside be it fen broad coastal dune breckland heath or down This new book by David Callahan is the definitive guide to the birding highlights of the region It contains a comprehensive review of all the major sites and many lesser known ones with maps notes on access and information on target species and when to visit Where to Watch Birds in East Anglia is indispensable for any birder heading to this bird rich corner of England
