Shingu Message From Nature:

New Directions in Picturebook Research Teresa Colomer, Bettina Kümmerling-Meibauer, Cecilia Silva-Díaz, 2010-07-12 In this new collection children's literature scholars from twelve different countries contribute to the ongoing debate on the importance of picturebook research focusing on aesthetic and cognitive aspects of picture books. Contributors take interdisciplinary approaches that integrate different disciplines such as literary studies, art history, linguistics, narratology, cognitive psychology, sociology, memory studies, and picture theory. Topics discussed include intervisuality, twist endings, autobiographical narration, and metaliterary awareness in picturebooks. The essays also examine the narrative challenges of first person narratives, ellipsis, and frame breaking in order to consider the importance of mindscape as a new paradigm in picturebook research. Tying picturebook studies to studies in childhood, multimodality, and literacy, this anthology is a representative of the different opportunities for research in this emerging field. Shingu Pierre Restany, Susumu Shingu, 1997-10-14 Susumu Shingu's graceful wind and water powered kinetic sculptures represent the perfect harmony between high technology and nature. Although originally trained as a painter, Shingu became interested in sculpture when he saw one of his shaped canvases turning softly in the wind. The work that followed relied on natural forces to make it move or make sound, and he began using more sophisticated materials for outdoor works. By the time of Expo 70 in Osaka, Shingu had been commissioned to create a piece for the plaza. It contained many of the elements he would use later; parts of it were moved by both wind and water in some ways harnessing their power but also buffeted by it. His work walks the fine line between complementing nature and being an integral part of it. The pieces, though large, colorful, and usually made of modern materials, adopt nature's rhythms in their movement. Shingu's sculpture is found around the world, from Japan to France, Italy, and the United States. In addition to creating sculptures, he has written and illustrated several children's books and designed several theater pieces that integrate his sculptures and installations with dramatic stories. All of these endeavors are collected here, along with the artist's comments on many of the sculptures, essays by Pierre Restany and Renzo Piano, and an interview with Joseph Giovannini in a monograph that provides a complete portrait of Shingu's diverse career.
