Shining in Plain View John Wheeler, Non-Duality Press, 2005 This book contains further dialogues and correspondence in the style of John's first book *Awakening to the natural state* also published by Non Duality Press The emphasis is on pure non duality or Advaita which is the direct pointing to the true nature of the one who is seeking The result as shown in the dialogues in this book is that those who are willing to explore these pointers come to a direct experience of freedom and the end of seeking and suffering p 3 of cover

Beyond Rhetorical Questions Irene Koshik, 2005-01-01 This book uses Conversation Analysis methodology to analyze rhetorical and other questions that are designed to convey assertions rather than seek new information It shows how these question sequences unfold interactionally in naturally occurring talk in a variety of settings e.g friends arguing over the phone parents disciplining children news interviews and second language writing conferences The questions are used across these widely different contexts to perform a number of related social actions such as accusations challenges to prior turns and complaints Those used in institution settings such as teacher student conferences orient to institutional norms and roles and can help accomplish institutional goals e.g eliciting student error correction Both the interactional context in which these questions are embedded and the known epistemic authority of the questioner play a role in our understanding of these questions i.e what social actions the question is accomplishing in a particular interaction
