Companion Ginger R. Brown,2016-02-12 The Captain is a descendant of an advanced species that has left this galaxy Before leaving his father gave him advanced technology extreme abilities and a sentient ship for his home The Captain had not met a species with more advanced technology until his encounter with the Zolins When the equally advanced Zolins become a threat to his system the Captain can no longer avoid the war and joins with the Collection The Collection is a military organization and has over a hundred member species They are at war with the Zolins because the Zolins are now expanding their territory and invading occupied systems The Collection sends the Captain to the Earth system to surveil Zolin ships that have taken an interest in the system While there he walks many human minds and becomes intrigued with a human female He transports to her room and tells her he is offering her the opportunity to be his companion If she agrees she will have a life longer than other humans and a life of adventure He says he is also recruiting her to work with the Collection in defeating the Zolins He will teach her the Zolin language so she understands what she hears after he has trained her to walk Zolin minds *Calendar of State Papers* Great Britain. Ginger R. Brown,2016-12-29 This is the story of a womans life after she leaves Earth with an alien Most of her story is told through the entries she makes in her journal Her alien companion is estranged from his father yet his love for his father is reflected in everything he does When he finally accepts that he will no longer be with his father he finds another father figure to fill the void As the Earth woman and her companion live out their lives she writes about portals battleships warlike species battles fought a sun going nova and even seniors joining the military During the course of her life the woman has gone from mental patient to mind walker to wife to warrior Through it all her companions have been more alien than anything she could have imagined while on Earth This is a story about the relationship between a truly alien man an Earth woman a sentient spaceship and the love they have for one another The people they meet along the way only add more substance to her journal entries *Calendar of State Papers, Domestic Series, of the Reign of Charles I ...: 1634-1635* Great Britain. Calendar of State Papers Domestic Series of the Reign of Charles 1. Preserved in the State Paper Department of Her Majesty's Public Record Office Edited by John Bruce ,1864 **Calendar of state papers** ,1864 *Sovereign of the Seas, 1637* John McKay,2020-02-28 Sovereign of the Seas was the most spectacular extravagant and controversial warship of the early seventeenth century The ultimate royal prestige project whose armament was increased by the King's decree to the unheard of figure of 100 guns the ship finally cost the equivalent of ten more conventional warships A significant proportion of this total was spent on her gilded decoration which gave the ship a unique combination of firepower and visual impact in battle that led her Dutch opponents to dub her the Golden Devil The vessel was the poster child of the notorious Ship Money tax raised without parliamentary approval and so unpopular it was a major factor leading to the Civil War in which Charles I lost his sovereignty and his head In that sense she was a ship that cost a kingdom It is unsurprising that such a high profile ship should be well documented but there are no contemporary plans and much of the visual evidence is contradictory In this book John McKay sets out to analyse the data and reconstruct the design and appearance of the ship in a degree of detail never previously attempted The results are presented as a folio of superbly draughted plans isometric drawings and coloured renderings covering every aspect of the design from the hull form to the minutiae of sails and rigging Each section is accompanied by an explanatory text setting out the rationale for his conclusions so the book will be of value to historians of the period as well as providing superb reference for any modeller tackling one of the most popular of all sailing ship subjects
