Long Fuse, Big Bang Eric Haseltine,2010-07-20 If I had asked people what they wanted they would have said faster horses Henry Ford As one part of your brain processes these words another part of your brain is urging you to put the book down and focus on something more pressing Get back to work on the budget due tomorrow Answer e mails growing stale in your inbox Get off your rear and update that r m br We re all guilty of it especially in the business world From Fortune 500 CEOs to assistants we work to solve the most urgent problems first That s because evolution has hardwired our brains to focus only on the immediate future a survival technique that worked extremely well when predators were lurking at every turn But that was then this is now In the modern world where life expectancies are long and physical perils rare at least for people who buy books it s not only possible to build a strong tomorrow without sacrificing today but to actually increase the number of here and now victories by pursuing distant wins That s where Long Fuse Big Bang comes in to help you work with that instinct to create and foster ideas that will lead to explosive professional results Through proven case studies and personal experience Dr Eric Haseltine shows you how to neutralize the quick fix way of thinking and actually use that desire to improve your chances of an enduring success Rather than fight our most basic thought processes this book will teach you how to work with your brain to light the long fuse keep it smoldering and ignite that Big Bang that will make history
