Spear,2015-07-13 Excerpt from *Preparing to Read or the Beginning of School Life* If we would make a success of anything we must have a good foundation upon which to build even though the task of making this basis is slow and laborious No satisfactory superstructure can rest upon a defective base Many who are just beginning to teach a primary school fail to understand the nature or the amount of preparatory work which is necessary before a child is able to read from a book with ease and with a natural expression It is my purpose to offer such suggestions and to present such details as will assist the inexperienced The exercises given are but suggestive of many others of a similar nature Slowly but steadily must the pupil be led on from the known and familiar to that which is unknown and strange The blackboard is essential in preparatory work since it affords the teacher a means for presenting written forms until they are well known It is a help in gaining the attention of the child who is interested in seeing form given to his oral expression About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works [Reading Begins at Home](#) Dorothy Butler,Marie M.
