**A Loxley**

## **Presidential Character:**

**The Presidential Character** James David Barber, 2017-10-03 Dr James David Barber's well known provocative examination of who has the potential to be voted into the highest office in the land and why is being reissued as the newest addition to the Longman Classics in Political Science series. Arguing that patterns in a person's character, world view and style can allow us to anticipate their performance as president, *The Presidential Character* offers explanations and predictions of the performance of presidents and presidential candidates. Drawing on historical, biographical and psychological research, Dr Barber hoped to help voters make judicious choices in determining the country's highest leaders. Revisiting this classic work in today's important presidential election season begs a reconsideration of Barber's probing and enduring query: What should we look for in a president?

**The Presidential Character** James Barber, 2019-10-17 A book entitled *The Presidential Character* is more timely and necessary than ever. This new issue of James David Barber's classic work appears almost 50 years after its first publication and yet reads like a roadmap to the 2020 presidential election. Its subtitle, *Predicting Performance in the White House*, is an apt reflection on the election of 2016. With a revised and updated foreword by George C. Edwards III that brings in the Trump Administration, this book argues that patterns in a person's character, world view and political style can allow us to anticipate his or her performance as president. How would Barber have categorized Donald J. Trump, who appears to defy every presidential type and norm? This question suggests one of the most provocative and appealing reasons for students, scholars and voters to re-read *The Presidential Character* at this particular juncture: What should we look for in a president? This text offers explanations and predictions of the performance of past presidents and presidential candidates, with many cautionary tales looking forward. Features a revised and updated foreword by presidential scholar George C. Edwards III, Distinguished Professor of Political Science at Texas A M University, that includes the advent of the Trump Administration and highlights the book's classic and enduring contributions. Includes predictions of presidential performance from Nixon to Bush. Analyzes the media's role in providing information about the political candidates and in shaping public opinion of them. Draws on historical, biographical and psychological research to help voters make judicious choices in determining the country's highest leaders. Encourages citizens to be actively involved, scholars, critics and participants in their government.

**The Presidential Difference** Fred I. Greenstein, 2001-02-28 As Americans choose and install a new president for a new century, they could do no better than to read this work by one of our keenest observers of the modern presidency. Drawing on a quarter century's immersion in the presidential record and scores of interviews, Fred I. Greenstein provides a fascinating and instructive account of the qualities that have served well and poorly in the Oval Office, from Franklin D. Roosevelt's first hundred days to the end of the Clinton administration. Greenstein offers a series of bottom-line judgments on each of his eleven subjects and a bold new explanation of why presidents succeed or fail. Previous analysts have placed their bets on the president's political prowess or personal character. Yet by the first standard

LBJ should have been our greatest president and by the second the nod would go to Jimmy Carter Greenstein surveys each president's record in public communication political skill vision cognitive style and emotional intelligence He concludes that the last is by far the most important According to Greenstein FDR provides endless positive lessons but is a source of warnings Truman let his bizarre readings of history lead him astray Eisenhower was wise but failed to communicate a vision Kennedy had no vision Reagan was Carter in reverse It is Ford who is most unappreciated and genuinely interesting Ford balanced many conflicting demands kept his poise and left the office much stronger than he found it Presidents can avoid failure if they are willing to accept the warnings of failures past and act accordingly But it is not only presidents who should read this book with care Some flaws cannot be overcome no matter how otherwise talented the man Only three of Greenstein's eleven modern presidents were fundamentally free of distracting emotional perturbations When we choose our presidents we will do well to listen to Greenstein and Beware the presidential contender who lacks emotional intelligence In its absence all else may turn to ashes

The Clinton Scandal and the Future of American Government Mark J. Rozell, Clyde Wilcox, 2000-03-24 The Clinton scandal consumed the better part of a year of American public life bitterly dividing the nation and culminating in a constitutional crisis In this book thoughtful nonpartisan essays provide an insightful and lasting analysis of one of the major political events of our time Here leading scholars explore the long reaching constitutional and political implications of the scandal how it will affect the presidency the law and the political process A first group of chapters considers effects of the scandal on institutions the presidency Congress the courts the independent counsel statute executive privilege and the impeachment process itself A second section addresses political factors public opinion the media and presidential character and personality A concluding essay broadly examines the implications of the scandal for governance These far reaching essays address such issues as risks posed to Congressional political careers the prospect of future presidents being subject to civil suits the pros and cons of Kenneth Starr's investigation the role of the media in breaking and then shaping the story and ways of reforming the system to handle the unacceptable private behavior of future presidents A provocative book for readers concerned with how our government copes with such a challenge and an essential reader for courses on the presidency or American government this collection will stand the tests of both time and rigorous analysis

White House Studies Compendium Robert W. Watson, 2007 brings together piercing analyses of the American presidency dealing with both current issues and historical events The compendium consists of the combined and rearranged issues of the journal White House Studies with the addition of a comprehensive subject index Preface

*The Politics of the Presidency* Joseph A. Pika, John Anthony Maltese, Andrew Rudalevige, 2021-11-16 Get the most up to date coverage and analysis of the presidency Never losing sight of the foundations of the office The Politics of the Presidency maintains a balance between historical context and contemporary scholarship on the executive branch providing a solid foundation for any presidency course In this Revised Tenth Edition bestselling authors Joseph A Pika John Anthony Maltese and Andrew Rudalevige present

a thorough analysis of the change and continuity following the November 2020 presidential election and Biden administration

**The Politics of the Presidency** John Anthony Maltese, Andrew Rudalevige, Joseph A. Pika, 2023-12-26 Get the most up to date coverage and analysis of the presidency with this comprehensive text Never losing sight of the foundations of the office The Politics of the Presidency maintains a balance between historical context and contemporary scholarship on the executive branch providing a solid foundation for any presidency course Now in its Eleventh Edition Maltese Rudalevige and Pika thoroughly analyze the change and continuity in Biden's first two and a half years in office and look forward to the competitive setting for the 2024 presidential race

**Presidential character** John Hans Bosma, 1989 **Amateur Hour** Lara Brown, 2020-08-13 This book assesses the impact of presidential character on the popularity productivity and ethics of contemporary presidents Through comparative analyses author Lara Brown demonstrates that the character of a president's leadership does not change in office and that the success of future presidents can be evaluated before they step into the White House She traces the rise of amateur outsiders like Donald Trump and asserts the need for systemic reform and cultural reassessment of presidential character Intended for students and scholars of the presidency this book also holds appeal for general readers who seek understanding of past and future presidential elections

*Presidential Leadership And National Security* Sam C Sarkesian, 1984-09-19 Energibehovet Finansverdenen Globalisering Politik Massemediep virkning Kongressen Forsvarsbudgettet Strategi Kriser The Character Factor James P. Pfiffner, 2003-12-11 WATERGATE MONICA LEWINSKY PAINKILLERS IN THE OVAL OFFICE IRAN CONTRA READ MY LIPS THE CHARACTER FACTOR The American president's character matters To most Americans it matters deeply But how do we define what character means and why can't we agree In this sober probing consideration of the character factor and the presidency veteran political analyst James P Pfiffner leads us through a survey of three aspects of presidential character that have proved problematic for recent chief executives lies promise keeping and sexual probity His goal is not to tell us which presidents have been good and which bad Rather he helps us think critically and impartially about complex character issues and invites us to reach our own conclusions The Character Factor avoids both the abyss of moral relativism and the desert of political cynicism It helps us look at our presidents and our presidential candidates without illusions knowing that flawed men can still be great leaders but that some flaws deserve defeat at the polls or even the ultimate presidential sanction impeachment

Amateur Hour Lara M. Brown, 2020-08 In order to understand how Donald Trump's character was thought to be a good fit for the presidency by many Americans this book reaches back into history to examine the individual characters of the contemporary presidents Institutional reforms political events and cultural changes have altered societal expectations about the appropriate character of a president and what constitutes presidential leadership Applying a framework of courage curiosity and compassion Lara M Brown brings character analysis together with leadership approaches in examining the crucial third year of any presidency to gauge its success or failure Through this comparative investigation she demonstrates that the

character of a president's leadership does not change in office. Thus the likely success of future presidential candidates can be evaluated long before they step into the White House. Ultimately Brown shows why American voters are likely to continue to elect unsuitable amateur outsiders unless and until systemic reforms are adopted or a cultural reassessment of character occurs. Intended for students and scholars of the presidency, this book holds great appeal for general readers who quest for understanding of the 2016 presidential election and are looking toward 2020 and beyond with trepidation as well as hope.

*The American Presidency* Fenton S. Martin, Robert Goehlert, 1987      **When Presidents are Great** Marcia Lynn Whicker, Raymond A. Moore, 1988      The Third Agenda in U.S. Presidential Debates Diana B. Carlin, 2009 This book examines recent U.S. presidential debates from the perspective of television viewers who watched the encounters first hand. Through a national program DebateWatch tens of thousands of viewers provided feedback to the debate sponsors, the campaigns, and the media following the 1996, 2000, and 2004 presidential debates. These focus groups, along with surveys and emails, allowed viewers to lay out a concise third agenda for the debates, the public's one in which comparisons could be drawn between their own interests and that of the media and the candidates themselves.      **Presidential banquet to ... the classes of New York, North and South Long Island, and Westchester, Reformed Dutch Church in America ... April 19th, 1897, to ratify and sanction in the name of the founders of the city the creation of the Greater New York Reformed Church in America classes of New York, 1897**      **Literary Digest: a Repository of Contemporaneous Thought and Research as Presented in the Periodical Literature of the World** Edward Jewitt Wheeler, Isaac Kaufman Funk, William Seaver Woods, 1921      **Our Martyred President as a Man ...** George Washington Townsend, 1901

**Shadow on the White House** David L. Anderson, 1993 Harry Truman's administration began searching for an American response to the clash in Indochina between French colonialism and Vietminh communism in 1945. Thirty years and five administrations later, Gerald Ford and his aides tried unsuccessfully to solicit additional aid for South Vietnam from a reluctant Congress. For Truman, Ford, and every American leader in between, the dilemma in Vietnam hung ominously over the presidency. In *Shadow on the White House*, seven prominent historians examine how the leadership of six presidents and an issue that grew into a difficult and often unpopular war shaped each other. Focusing on the personalities, politics, priorities, and actions of the presidents as they confronted Vietnam, the authors consider the expansion of presidential power in foreign policy formulation since World War II. In their analyses, they chronicle the history of executive leadership as it related to Vietnam, assess presidential prerogatives and motives on war and peace issues, and clarify the interconnection between the modern presidency and the nation's frustrating, tragic, and humiliating failure in Southeast Asia. Although other histories have been written about the Vietnam experience, this book is the first systematic and comparative survey on presidential leadership as it relates to the war issue. It is organized by presidential administrations, giving a detailed examination of each president's decisions and policies. Based on the most recently opened archival sources, the essays provide a framework on

which to hang the kaleidoscopic events of the war Amazon.com
