Presidentializing The Premiership:

The Oxford Handbook of Political Executives Rudy B. Andeweg, Robert Elgie, Ludger Helms, Juliet Kaarbo, Ferdinand Müller-Rommel, 2020-07-30 Political executives have been at the centre of public and scholarly attention long before the inception of modern political science In the contemporary world political executives have come to dominate the political stage in many democratic and autocratic regimes The Oxford Handbook of Political Executives marks the definitive reference work in this field Edited and written by a team of world class scholars it combines substantive stocktaking with setting new agendas for the next generation of political executive research

Premiership Andrew Blick, G. W. Jones, 2010 The office of Prime Minister stands at the apex of the British political system This work combines the methods of history and political science to produce theories of the development nature and power of the premiership and to explain the implications for present politicians

Nnamdi Azikiwe Journal of Political Science, 2012

The Roots of Partisan Effect Takeshi Iida, 2007 This dissertation examines the determinants of the effect of partisanship on support for a parliamentary government In doing so I address a set of related questions using Japan as an example I begin with a descriptive question Is the effect of partisanship on the job approval of the administration changing over time To answer this question using 1960-2001 time series data I demonstrate the changing impact of the job approval rate of the cabinets over this period Then I turn to explanation for the change and ask Why does the effect change over time I hypothesize that supporters of newly established parties in the government are less likely to be influenced by their partisanship when evaluating the cabinet performance Partisanship defined here as a predisposition to support a particular political party grows with the cumulative effect of political experience and learning There is however less opportunity for newly established and political parties to have such loyal supporters My second hypothesis holds that supporters of ruling parties to which the prime minister does not belong are less likely to make partisan judgments in appraising the cabinet's performance Party identification extends to the government in which the party participates the partisan effect on the appraisal of the government's performance emerges The party affiliation of the prime minister influences to what extent people associate the government with the party

Intelligence and National Security Policymaking on Iraq James P. Pfiffner, Mark Phythian, 2008-08-19 Presents a range of scholarly analyses of how George Bush and Tony Blair used or misused intelligence about WMD in taking their countries to war in Iraq The study includes original excerpts from speeches and reports on the need to go to war and what subsequently went wrong as well as cutting edge analysis of the decision making involved

Prime Ministers and Premiers Leslie Alexander Pal, David Taras, 1988

Myths and Realities Yoshifumi Tamada, 2008 This study challenges the prevailing view that Thailand's democratization process in the 1990s was led by the active middle class It presents an alternative explanation examining certain passive forces The author argues the need to break free from the spell of the assumption that the middle class is pro democracy and turn attention toward anti democratization forces because the pace of political democratization

was slowed down by the presence of such forces This book will emphasize the fresh point of view that democratization was advanced by appeasement of the forces that were reluctant to democratization The Japanese original of this book won an Ohira Masayoshi Memorial Prize in 2003

Democracy and Institutional Development Bonnie N. Field, Kerstin Hamann, 2008-10-14 This book partially fills these gaps by analyzing Spanish political parties and institutions in comparative theoretical perspective Two primary themes unite the book and are addressed by the chapter authors first institutionalization and the distribution of institutionalization in the polity and second the relationship between institutional design and representation
