*Sailing South* is a one man travel log by Philip Sanford Marden in which he details his sailing trips from the United States mostly to islands in Central America Philip Sanford Marden was an ardent sailor who lived during the late nineteenth and early twentieth centuries He was an accomplished seaman but not one who fancied himself an explorer Thus the locations travelled to and detailed in this text are not exotic and undiscovered but rather islands that many people have had the opportunity to visit Marden s objective in writing *Sailing South* was to create a pleasant book that could serve as a light diversion for the reader This work is not an instructional nor is it full of technical details The book is divided into three parts each of which highlights a different country or region that Marden sailed to Cuba Panama Puerto Rico and Jamaica are the nations that receive the most space with cursory details provided about a few other regions the author visited *Sailing South* achieves its goal of providing the reader with a piece of light reading Perhaps even more so today than when it was originally published the book has a romantic sense to it that glorifies travel sailing in particular The details Marden provides about the people he met are typically positive in nature and the author is able to paint a convincing picture of these island nations with his prose If you are looking for a book to accompany you on your next travel adventure Marden s work here is a great choice About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works      *Sailing South* Philip Sanford Marden, 2016-05-20 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant      *Sailing Craft* Edwin J. **Marino Sanudo Torsello, The Book of the Secrets of the Faithful of the Cross** Peter Lock, 2016-05-06 This is the first full translation of Marino Sanudo Torsello's *Secreta fidelium Crucis* to be made into English. The work itself is a piece of crusading propaganda following the fall of Acre in 1291, written between 1300 and 1321, but it includes much of historical relevance along with interesting observations on the early history of Jerusalem and the Crusader Kingdom. The translation is based upon the text edited by Jacques Bongars in 1611. There is an introduction that contextualises the book, its author, his sources, and his audience. The notes provide essential information to clarify internal textual references and allusions, as well as the role of Biblical references in Sanudo's grand design. The index is designed to make this detailed text usable and accessible. In this his major work, Sanudo advocated the conquest of Egypt as the means to regain Jerusalem for the Latins and worked through his points with considerable detail alongside references to 13th century Mediterranean history, especially involving Louis IX of France and Charles of Anjou, king of Naples. Books I and II give considerable detailed discussion of the concept, plan, and costs of his proposed crusade. Book III provides an outline history of the crusades, and the crusader states. It is derived from a wide reading of other sources, especially of William of Tyre, and for events after 1184, on the Eracles, the letters of James of Vitry, and Sanudo's own experiences in the east. Throughout the work, it contains a staggering amount of cartographical, ethnographical, geographical, and nautical information, as well as numerous unique insights into historical events and personalities of the late 13th century, not only in Outremer but in Western Europe.
