*Sex Museums* Jennifer Tyburczy, 2016-01-11 Museums have lengthy history going back to the Renaissance Cabinets of Curiosity and they are indices of changing fashions of perception insofar as the categories museum curators use to classify objects change over time The major focus of Tyburczy's study is sexuality on display which sets up in turn her investigation of the effects of museum display on the history of sexuality Historical context for the museum is one of her themes and how categories of normativity and perversity change over time with another themes being the work of sex museums in redefining what sex means in the modern public sphere she also folds in consideration of the pleasures and dangers of exhibiting marginalized sexual subjects women nonwhite races LGBT individuals and the like last she explores the paradox of asserting as she does that all museums are sex museums bodies move around and toward objects on display they reshape the typical dances of museum goes along with their preconscious motivations in visiting a museum She proposes that explicit display or restagings of sexual artifacts provides new ways for approaching and understanding issues of desire sexual identity and
