Preparing For Algebra:

The Homework Club's - Preparing for Algebra Susan Everingham, 2017-05-19 The Problem Preparing for Algebra meets the needs of students who experience math related anxiety Often weak basic elementary skills show up as learning issues by the time they enter middle school many also suffer from habitual mistakes Anxiety can stop kids from developing knowledge of the basics that they will need to understand algebra An overwhelmed mind isn't open enough to learn new skills Solving the Problem Preparing for Algebra is designed as a supplementary workbook We start by looking at simple things differently The first chapter may appear too simple but it is written to bridge the language barrier between rote elementary computations to the more abstract algebra they will encounter in middle school The pages of this book present one clear content area at a time and fewer problems than standard textbooks Our aim is to reduce student anxiety by minimizing the number of problems per page using larger fonts giving more room for computation and using clear examples The Favorite Mistakes section in the back addresses and corrects the most common habitual mistakes The Result This book should take your child from I hate math to It's ok I got it Using Preparing for Algebra will rebuild the basics so that algebra and its new language will become easy to understand for your child You'll find that about 80% of your student's math challenges are covered in this book As a parent you may have struggled to help your child with his or her math homework you'll be pleasantly surprised at how easy it is to help your child using this book Who Wrote this Book As an after school program The Homework Club employed 100's of educators and taught 1000's of students These worksheets were developed over 18 years for students to go from their basic elementary math education to succeed in middle school math and specifically with algebra Preparing for Algebra is a must to help your child succeed with middle school algebra Moffatt's How to prepare notes of lessons Thomas J.
