**Hundred Years of Spying** Phil Carradice,2021-08-04 Early espionage organisations like Walsingham s Elizabethan spy network were private enterprises tasked with keeping the Tudor Queen and her government safe Formal use of spies and counter spies only really began in the years after 1909 when the official British secret service was founded Britain became

the first major proponent of secret information gathering and other nations quickly followed The outbreak of war in 1914 saw a sudden and dramatic increase in the use of spies as the military quickly began to realise the value of covert intelligence Spying came of age during the war on the Western Front and that value only increased in the run up to the Second World War when the threat of the Soviet Union and Nazi Germany began to make themselves felt The Cold War years with the use of moles defectors and double agents on both sides of the Iron Curtain saw the art of spying assume record proportions The passing on of atom secrets the truth about Russian missiles on Cuba it was the age of the double agent the activities of whom managed to keep away the looming threat of nuclear war A Hundred Years of Spying takes the reader through the murky world of espionage as it develops over the course of the twentieth century where the lines of truth and reality blur and where many real life spies have always been accompanied maybe even preceded by a plethora of spy literature This book will look at the use of and development of spying as an accepted military practice It will focus on individuals from Belgians like Gabrielle Petite to the infamous Mata Hari from people like Reilly Ace of Spies to the British traitors such as Philby Burgess and McClean The activities of American atom spies like the Rosenbergs will also be covered as will Russian double agent Oleg Penkovsky and many others *Medico-pharmaceutical Critic and Guide* William Josephus Robinson,1930 Spirits of Just Men Charles D. Thompson Jr.,2011-04-20 *Spirits of Just Men* tells the story of moonshine in 1930s America as seen through the remarkable location of Franklin County Virginia a place that many still refer to as the moonshine capital of the world Charles D Thompson Jr chronicles the Great Moonshine Conspiracy Trial of 1935 which made national news and exposed the far reaching and pervasive tendrils of Appalachia s local moonshine economy Thompson whose ancestors were involved in the area s moonshine trade and trial as well as local law enforcement uses the event as a stepping off point to explore Blue Ridge Mountain culture economy and political engagement in the 1930s Drawing from extensive oral histories and local archival material he illustrates how the moonshine trade was a rational and savvy choice for struggling farmers and community members during the Great Depression Local characters come alive through this richly colorful narrative including the stories of Miss Ora Harrison a key witness for the defense and an Episcopalian missionary to the region and Elder Goode Hash an itinerant Primitive Baptist preacher and juror in a related murder trial Considering the complex interactions of religion economics local history Appalachian culture and immigration Thompson s sensitive analysis examines the people and processes involved in turning a basic agricultural commodity into such a sought after and essentially American spirit

*Management consulting. The Why, What and How.* Kjetil Sandermoen,2019-07-22 This book gives an overview of ways to work as a management consultant including relationships with clients ethics pricing contracts and some basic tools for delivering consulting services This book was written for those who want to work in this area for existing consultants and also for managers and buyers of management consulting services Quotes from the book This is the book I wish I could have read myself about 30 years ago when I first started my career as a young management consultant When young people are asked

about their dream job management consulting is often high on the list when I was asked by the managing partner of the consulting firm what kind of consultant I wanted to become my reply was honest surprise Are there really different kinds What is the most important skill for a leader or manager to master I would say it is the decision making process Perhaps the most important strategic decision in management consulting is how to price your services both how much you charge and what for Yes I claim that to understand the internal and interpersonal politics of any organization is a necessary prerequisite for a good management consultant I am sure that many organisational problems are based more on politics than on policies it will draw significant resources away into internal disintegration and fights rather than freeing the same energy for external opportunities and tasks
