

OUT OF THE STARS

The background is a rich, dark blue space filled with numerous white and yellow stars of varying sizes. A large, bright blue and white planet, resembling Earth, is positioned on the right side, showing swirling cloud patterns. A dark, elongated satellite or probe is seen in the upper left quadrant, appearing to orbit or approach the planet. A bright, multi-colored comet streak, with purple and pink hues, arcs across the lower middle of the frame. In the bottom left corner, a small, grey, cratered celestial body, possibly a moon or asteroid, is visible.
