Origins and Basic Principles

The United Nations was formed in the aftermath of World War II as a successor to the League of Nations. Its formation was aimed at preventing future conflicts through collective security arrangements and international cooperation. The UN Charter was signed by 51 states in San Francisco on June 26, 1945, and ratified shortly thereafter.

The UN is founded on several key principles:

- **Sovereign Equality:** All states are equal under international law.
- **Sovereignty:** States retain full sovereignty over their affairs.
- **Territorial Integrity:** States must maintain and respect the territorial integrity and political independence of other states.
- **International Obligations:** States should carry out their international obligations consistently.
