Pasos Steps Letras Hispanicas Hispanic Writings:

A Guide to Spanish Literature in Translation Lawrence J. Olszewski, 2025-07-16 There's more to Spanish literature than Don Quixote. In addition to Miguel de Cervantes Saavedra's immortal classic, Spain produced the earliest evidence of works in a Romance dialect, debuted the picaresque genre, and introduced the Don Juan figure to the world. This guide analyzes the merits and shortcomings of nearly 300 English translations of 100 major works of Spanish literature in poetry, prose, and theater. Each entry summarizes the importance of the author and the work, discusses elements of the translations such as the source text, formats, supplementary material, and translators' methodology, and provides commentary that evaluates the fidelity and readability of the translations and the utility of the supplementary material.

Distant Relation Eoin S. Thomson, 2001-01-24 The *Distant Relation* breaks down the artificial division between philosophy and literature by weaving contemporary philosophic arguments through close readings of Carpentier, Rulfo, Paz, and García Márquez. Thomson draws the reader into the largely uninhabited space between philosophy and literature, providing new critical strategies that allow text and reader to respond to the very distance they share. These strategies involve a reconceptualization of distance that recognizes the productive and affirmative nature of separation. The *Distant Relation* will attract anyone interested in the ongoing struggle to overcome conventional interpretations of language, time, and identity within the broader context of philosophical trends and Spanish American studies.

An Island in the Stream Scott Slovic, David Taylor, Armando Fernández Soriano, 2019-07-15 *An Island in the Stream*, a collaboration between Cuban and American writers and scholars, is a diverse collection of ecocritical and literary responses to the natural environment in Cuba and to Cuban environmental culture. The chapters explore Cuba's vibrant cultural history with particular attention to literature and the visual and performing arts, which are viewed through such lenses as ecofeminism, postcolonial ecocriticism, multiculturalism, and the nuclear imaginary, among others. American environmentalists have long viewed modern Cuba as a model of progressive environmental thinking. In the 1990s, the Cuban government made sustainability a centerpiece of national policy initiatives. This book explores some of the historical foundations of contemporary sustainability efforts in Cuba while also describing the current environmental situation in that part of the world. From Jos Mart to Excilia Salda, from Antonio Núñez Jiménez to Lydia Cabrera, the chapters here aim to provide a starting point for others who wish to learn about Cuban environmental thought. The conjunction of scholarly and creative work is a gesture toward the interdependence of humanities research and artistic expression, both of which seek to encourage environmental and cultural mindfulness and sensitivity.

Postcolonial Ecologies Elizabeth DeLoughrey, George B. Handley, 2011-04-20 The first edited collection to bring ecocritical studies into a necessary dialogue with postcolonial literature, this volume offers rich and suggestive ways to explore the relationship between humans and nature around the globe, drawing from texts from Africa and the Caribbean as well as the Pacific Islands and South Asia. Turning to

contemporary works by both well and little known postcolonial writers the diverse contributions highlight the literary imagination as crucial to representing what Eduardo Glissant calls the aesthetics of the earth The essays are organized around a group of thematic concerns that engage culture and cultivation arboriculture and deforestation the lives of animals and the relationship between the military and the tourist industry With chapters that address works by J M Coetzee Kiran Desai Derek Walcott Alejo Carpentier Zakes Mda and many others Postcolonial Ecologies makes a remarkable contribution to rethinking the role of the humanities in addressing global environmental issues
