Population Control: for & Against, 1973 *Population Control*, 1973 *Population Control*, 1970 **The War Against Population** Jacqueline Rorabeck Kasun, 1999 Challenges the assumption that unchecked human population growth will lead to social and economic disaster **Merchants of Despair** Robert Zubrin, 2012-02-28 There was a time when humanity looked in the mirror and saw something precious worth protecting and fighting for indeed worth liberating But now we are beset on all sides by propaganda promoting a radically different viewpoint According to this idea human beings are a cancer upon the Earth a horde of vermin whose aspirations and appetites are endangering the natural order This is the core of antihumanism *Merchants of Despair* traces the pedigree of this ideology and exposes its pernicious consequences in startling and horrifying detail The book names the chief prophets and promoters of antihumanism over the last two centuries from Thomas Malthus through Paul Ehrlich and Al Gore It exposes the worst crimes perpetrated by the antihumanist movement including eugenics campaigns in the United States and genocidal anti development and population control programs around the world Combining riveting tales from history with powerful policy arguments *Merchants of Despair* provides scientific refutations to all of antihumanism's major pseudo scientific claims including its modern tirades against nuclear power pesticides population growth biotech foods resource depletion and industrial development *Nuclear Science Abstracts*, 1970 NSA is a comprehensive collection of international nuclear science and technology literature for the period 1948 through 1976 pre dating the prestigious INIS database which began in 1970 NSA existed as a printed product Volumes 1-33 initially created by DOE's predecessor the U S Atomic Energy Commission AEC NSA includes citations to scientific and technical reports from the AEC the U S Energy Research and Development Administration and its contractors plus other agencies and international organizations universities and industrial and research organizations References to books conference proceedings papers patents dissertations engineering drawings and journal articles from worldwide sources are also included Abstracts and full text are provided if available *Population Control* Steven Mosher, 2011-12-31 For over half a century policymakers committed to population control have perpetrated a gigantic costly and inhumane fraud upon the human race They have robbed people of the developing countries of their progeny and the people of the developed world of their pocketbooks Determined to stop population growth at all costs those Mosher calls population controllers have abused women targeted racial and religious minorities undermined primary health care programs and encouraged dictatorial actions if not dictatorship They have skewed the foreign aid programs of the United States and other developed countries in an anti natal direction corrupted dozens of well intentioned nongovernmental organizations and impoverished authentic development programs Blinded by zealotry they have even embraced the most brutal birth control campaign in history China's infamous one child policy with all its attendant horrors There is no workable demographic definition of overpopulation Those who argue for its premises conjure up images of poverty low incomes poor health unemployment malnutrition

overcrowded housing to justify anti natal programs The irony is that such policies have in many ways caused what they predicted a world which is poorer materially less diverse culturally less advanced economically and plagued by disease The population controllers have not only studiously ignored mounting evidence of their multiple failures they have avoided the biggest story of them all Fertility rates are in free fall around the globe Movements with billions of dollars at their disposal not to mention thousands of paid advocates do not go quietly to their graves Moreover many in the movement are not content to merely achieve zero population growth they want to see negative population numbers In their view our current population should be reduced to one or two billion or so Such a goal would keep these interest groups fully employed It would also have dangerous consequences for a global environment
