Austin, 2023-05-23 *War Espionage and Masculinity in British Fiction* explores the masculinities represented in British works spanning more than a century Studies of Rudyard Kipling s *The Light That Failed* 1891 and Erskine Childers s *The Riddle of the Sands* 1903 investigate masculinities from before World War I at the height of the British Empire A discussion of R C Sherriff s play *Journey s End* takes readers to the battlefields of World War I where duty and the harsh realities of modern warfare require men to perform perhaps to die perhaps to be unmanned by shellshock From there we see how Dorothy Sayers developed the character of Peter Wimsey as a model of masculinity both strong and successful despite his own shellshock in the years

between the world wars Graham Greene's *The Heart of the Matter* 1948 and *The Quiet American* 1955 show masculinities shaken and questioning their roles and their country's after neither world war ended all wars and the Empire rapidly lost ground Two chapters on *The Innocent* 1990 Ian McEwan's fictional account of a real collaboration between Great Britain and the United States to build a tunnel that would allow them to spy on the Soviet Union dig deeply into the 1950's Cold War to examine the fictional masculinity of the British protagonist and the real world and fictional masculinities projected by the countries involved Explorations of Ian Fleming's *Casino Royale* 1953 and *The Living Daylights* 1962 continue the Cold War theme Discussion of the latter film shows a confident infallible masculinity optimistic at the prospect of glasnost and the potential end of Cold War hostilities John le Carr's *The Night Manager* 1993 and its television adaptation take espionage past the Cold War The final chapter on Ian McEwan's *Saturday* 2005 shows one man's reaction to 9/11

Postmodern Fiction and the Break-Up of Britain Hywel Dix, 2011-11-03 This study explores how British identity has been explored and renegotiated by contemporary writers It starts by examining the new emphasis on space and place that has emerged in recent cultural analysis and shows how this spatial emphasis informs different literary texts Having first analysed a series of novels that draw an implicit parallel between the end of the British Empire and the break up of the unitary British state the study explores how contemporary writing in Northern Ireland Scotland and Wales contributes to a sense of nationhood in those places and so contributes to the break up of Britain symbolically Dix argues that the break up of Britain is not limited to political devolution in Northern Ireland Scotland and Wales It is also an imaginary process that can be found occurring on a number of other conceptual coordinates Feminism class regional identities and ethnic communities are all terrains on which different writers carry out a fictional questioning of received notions of Britishness and so contribute in different ways to the break up of Britain
