Creemers, T. Peters, D. Reynolds, 2022-02-26 School effectiveness and school improvement have different origins School effectiveness is more directed to finding out what works in education and why school improvement is practice and policy oriented and intended to change education in the desired direction However in their orientation to outcomes input processes and context in education they also have much in common In the theoretical part different orientations have been analysed and combined in a model for effective school improvement Based on this analysis an evaluation framework was developed for the analysis of the case studies of school improvement projects in the participating countries The theoretical model and the results of the analyses of the case studies were combined in a framework of effective school improvement **Sustainable School Improvement** Patricia Wright, 2022-08-09 The book addresses two key barriers to school improvement that are currently impacting educators and school leaders The first is the churn of constant change in the form of multiple initiatives and compliance overload experienced by today s educators It is not uncommon to hear a teacher say I can t focus on the kids there are just too many things to do I m overwhelmed Has change itself become a distraction Has it forced educators to move not toward but away from their primary focus student learning The second barrier is a dependency on outdated assumptions or roadblock thinking that cause schools to act in ways contrary to sound educational practice This book challenges educators to embrace forward thinking Instead of depending on the next newest innovation or program or falling back to the way we have always done it the CAR provides a framework that allows educators and school leaders to equitably and

coherently address student learning by engaging in the deep conversations that are vital to effective practice The book offers a universal blueprint that coherently and strategically connects curriculum standards student learning professional learning and school culture to achieve meaningful and sustainable change that directly impacts student outcomes
