Science And Its Critics:

Science and Its Critics John Arthur Passmore,1978

The Frankfurt School and Its Critics T. B. Bottomore,2002

Controversial look at the School s contribution to modern sociology examining issues previously not discussed such as the neglect of history and political economy by the critical theorists and the relationship of the School to radical movements

The Frankfurt School and its Critics The late Tom Bottomore,2002-11-01 The Institute of Social Research from which the Frankfurt School developed was founded in the early years of the Weimar Republic It survived the Nazi era in exile to become an important centre of social theory in the postwar era Early members of the school such as Adorno Horkheimer and Marcuse developed a form of Marxist theory known as Critical Theory which became influential in the study of class politics culture and ideology The work of more recent members and in particular Habermas has received wide attention throughout Europe and North America Tom Bottomore s study takes a new and controversial look at the contributions of the Frankfurt School to modern sociology examining several issues not previously discussed elsewhere He discusses the neglect of history and political economy by the critical theorists and considers the relationship of the later Frankfurt School to the radical movements of the 1960s and the present time His critical analysis makes the school s writers accessible through an assessment of their work and an exploration of the relationship of Critical Theory to other forms of sociological thought especially positivism and structuralism

Intelligent Design Creationism and Its Critics Robert T. Pennock,2001-12-21 The last decade saw the arrival of a new player in the creation evolution debate the intelligent design creationism IDC movement whose strategy is to act as the wedge to overturn Darwinism and scientific naturalism This anthology of writings by prominent creationists and their critics focuses on what is novel about the new movement It serves as a companion to Robert Pennock s Tower of Babel in which he criticizes the wedge movement as well as other new varieties of creationism The book contains articles previously published in specialized hard to find journals as well as new contributions Each section contains introductory background information articles by influential creationists and their critics and in some cases responses by the creationists The discussions cover IDC as a political movement IDC s philosophical attack on evolution the theological debate over the apparent conflict between evolution and the Bible IDC s scientific claims and philosopher Alvin Plantinga s critique of naturalism and evolution The book concludes with Pennock s Why Creationism Should Not Be Taught in the Public Schools

Religious Transhumanism and Its Critics Arvin M. Gouw,Brian Patrick Green,Ted Peters,2022-03-10 Why do representatives of different religious traditions find the transhumanist vision of the future not only theologically compatible but even inspiring Transhumanism is a global movement seeking radical human enhancement The trans in transhumanism marks the transition from the present stage in human evolution into the future namely post human existence Containing chapters written by adherents to a variety of religious traditions Religious Transhumanism and Its Critics provides first hand testimony to the value of the transhumanist vision perceived by the religious mind In addition the contributors critique both

secular and religious transhumanism in light of realistic science and commitment to social justice *Criticism and the History of Science* Gunnar Andersson,1994 *Criticism and the History of Science* deals with Thomas Kuhn s Imre Lakatos s and Paul Feyerabend s criticism of Karl Popper s falsificationist conception of science It argues that this criticism is based on two important methodological problems the problem that observations and best statements are fallible and impregnated with theory and the problem of how to test complex theoretical systems In order to solve these problems it shows how problematic test statements can be criticised and whole theoretical systems falsified In this way the falsificationist conception of science is developed and defended in a way making a deeper understanding of science and its history possible **Modern Criticism; Or, The New Theology. The Battle of the Critics** Criticism,Modern criticism,1874 **Pseudo-criticism, Or, The Higher Criticism and Its Counterfeit** Robert Anderson,1904 **The Modern Quarterly Series** ,1923 *The Nation* ,1885 **The Critics of Herbartianism** Frank Herbert Hayward,M. E. Thomas,1903 *The Higher Criticism and the War* Robert Anderson,1915 **The Methodist Review** ,1892 **Encyclopaedia Britannica** Hugh Chisholm,1910 This eleventh edition was developed during the encyclopaedia s transition from a British to an American publication Some of its articles were written by the best known scholars of the time and it is considered to be a landmark encyclopaedia for scholarship and literary style *Elizabethan Criticism of Poetry ...* Guy Andrew Thompson,1914 **The Standard** ,1907 *Journal of Medico-physical Research* ,1924 **Commonweal** ,1926 *Proceedings of the High School Conference of ...* ,1928 Academy; a Weekly Review of Literature, Learning, Science and Art ,1912 The Poetical gazette the official organ of the Poetry society and a review of poetical affairs nos 4 7 issued as supplements to the Academy v 79 Oct 15 Nov 5 Dec 3 and 31 1910
