Politics and Policy Creating Change Through Art and Culture Scaling Your Impact Expanding Your Reach Globally Conclusion Living a Life of Impact and Purpose The Many Panics of 1837 Jessica M. Lepler,2013-09-23 Reveals how people transformed their experiences of financial crisis into a single event that would serve as a turning point in American history

Sink or Swim Andrew Kopec,2025-08-25 People living in the nineteenth century United States saw shocking upheavals in both the economy and in ideas of selfhood in a commercial society Narratives such as Horatio Alger s rags to riches tales allured Americans with visions of financial success while events such as the Panics of 1819 1837 1857 and 1865 threatened them with sudden and devastating financial failure The antebellum period s go ahead ethos encouraged individuals to form an identity amid this chaos by striving for financial success through risk taking that is to form a capitalist self Andrew Kopec argues that writers of this era were not immune to this business turbulence rather their responses to it shaped the development of American literature By examining the public and private writings of well known American writers including Washington Irving Catharine Maria Sedgwick Nathaniel Hawthorne Herman Melville and Frederick Douglass Kopec contends that instead of anxiously retreating from the volatile market these figures deliberately engaged with it in their writing These writers grappled with both the limits and opportunities of capitalist selfhood and tried in various ways to harness the economy s energies for the benefit of the self In making this argument Kopec invites readers to consider how this era of American literature questioned the ideologies of capitalist identity that seem inescapable today Savannah's Midnight Hour Lisa L. Denmark,2019-12-15 Savannah s Midnight Hour argues that Savannah s development is best understood within the larger history of municipal finance public policy and judicial readjustment in an urbanizing nation In providing such context Lisa Denmark adds constructive complexity to the conventional Old South New South dichotomous narrative in which the politics of slavery secession Civil War and Reconstruction dominate the analysis of economic development Denmark shows us that Savannah s fiscal experience in the antebellum and postbellum years while exhibiting some distinctively southern characteristics also echoes a larger national experience Her broad account of municipal decision making about improvement investment throughout the nineteenth century offers a more nuanced look at the continuity and change of policies in this pivotal urban setting Beginning in the 1820s and continuing into the 1870s Savannah s resourceful government leaders acted enthusiastically and aggressively to establish transportation links and to construct a modern infrastructure Taking the long view of financial risk the city municipal government invested in an ever widening array of projects canals railroads harbor improvement drainage because of their potential to stimulate the city s economy Denmark examines how this ideology of over optimistic risk taking rooted firmly in the antebellum period persisted after the Civil War and eventually brought the city to the brink of bankruptcy The struggle to strike the right balance between using public policy and public money to promote economic development while at the same time trying to maintain a sound fiscal footing is a question governments still struggle with today The Way of Excellence in Life Henry Perry,2026-01-25 The Way of

Excellence in Life is not a book about winning more doing more or pushing yourself harder at any cost It is a book about living better by living deeper In a world shaped by distraction speed comparison and hollow success excellence has been misunderstood It has been reduced to hustle status optimization and performance This book offers a different vision Excellence as explored here is not a finish line or a personality trait It is a way of being A lifelong practice of aligning how you live with what truly matters Drawing on timeless wisdom modern psychology and lived human experience this book shows how excellence grows through focus consistency integrity care and contribution rather than burnout perfectionism or external validation Across its chapters The Way of Excellence in Life guides readers through the inner and outer dimensions of a meaningful life You will explore why values must come before goals why consistency outlasts intensity and why mastery is found in patient practice rather than dramatic breakthroughs You will learn how to build confidence that endures failure how to resist distraction and comparison and how to design environments and habits that support what matters most This book goes beyond personal development to examine excellence in relationships work leadership and community It shows how care responsibility and service transform effort into fulfillment It challenges the modern obsession with speed metrics and visibility offering instead a path grounded in depth craftsmanship ethical clarity and long term impact Above all this is a human book It does not demand perfection It makes room for struggle doubt setbacks and drift It teaches how to return to alignment again and again without self betrayal Excellence here is not about becoming extraordinary in the eyes of others It is about becoming fully human through how you show up how you care and how you choose to live The Way of Excellence in Life is for anyone who feels that modern life pulls them away from what matters For those who want to do meaningful work without burning out For leaders who want to raise standards without coercion For individuals seeking purpose beyond achievement and fulfillment beyond success This book is not a quick fix or a set of hacks It is an invitation An invitation to walk a different path One defined by intention integrity depth and care A path where excellence is not something you chase but something you live
