Rendering Kyle May, Julia van den Hout, 2012-01-01 As information is distributed and consumed at an increasingly rapid pace one of the most effective or at least pervasive ways to communicate architectural ideas is through renderings Typically a perspectival image that can be understood without any knowledge of architectural drawing conventions the rendering derives power from its accessibility to a wide audience hence its crucial role in design competitions client presentations press releases and other such public forums While these architectural visualizations are certainly nothing new advances in software and hardware have enabled renderings to be made faster and more realistic than ever before This presents both an opportunity and a challenge On the one hand design concepts can now be tested and conveyed with an unprecedented degree of visual accuracy Conversely whether through omission extreme dramatization or even intentional fakery architects now have the ability to realistically depict the impossible Furthermore both clients and public are beginning to expect photorealistic imagery even at the earliest stages of a project when supposed realism can oftentimes belie the fundamentally speculative nature of design Given the importance of these images in mediating between architects and the people they ultimately serve CLOG will critically assess the state of renderings today

Itinerarios Del Proyecto 1 - Ficción Epistemología Jorge Sarquis, 2021-06-01 Este libro posee tres títulos suplementarios que no pretenden cerrarlo en unidad ni agotar su explicación El principal Itinerarios evoca un viaje por los caminos del proyecto sin marcar significados precisos ni recorridos prefijados de probada eficacia para el éxito Convoa a crear caminos con nuevos sentidos los invita al riesgo de ver en el viaje mismo Así llamaban los griegos a la teoría viajar volver y ver otra cosa con otros ojos Si el proyecto es un camino un camino todo es también un medio para llegar a los objetivos a los fines anticipados la forma espacial significativa anhelada El otro imagina el libro siguiendo la lógica epistémica que con la explicación y la comprensión atrapa y agota el saber de la arquitectura pero se advierte que finalmente es una ficción de mil puntos de vista Por último pensar La Investigación Proyectual como forma de generar conocimientos en los dominios de la arquitectura es la manera de investigar utilizando el proyecto como herramienta privilegiada Esto es saber hacer o fabricar realidades a partir del mundo real que se interpreta con reglas y materiales de la arquitectura intencionados por el creador del proyecto Esta epistemología a este saber teórico no podrá verificarse sino en la acción concreta en el hacer en acto Y al hacerlo comprobaremos que este saber pretendidamente sólido se lo advierte como una ficción una realidad construida Se propone como una ficción epistémica no porque no sea verdad sino porque es una de las muchas verdades posibles de la arquitectura y en su recorrido traicionará siempre y antes que nada a sí misma
