The Other Struggle for Equal Schools Rubén Donato,1997-01-01 Examining the Mexican American struggle for equal education during the 1960s and 1970s in the Southwest in general and in a California community in particular Donato challenges conventional wisdom that Mexican Americans were passive victims accepting their educational fates He looks at how Mexican American parents confronted the relative tranquility of school governance how educators responded to increasing numbers of Mexican Americans in schools how school officials viewed problems faced by Mexican American children and why educators chose specific remedies Finally he examines how federal state and local educational policies corresponded with the desires of the Mexican American community

The Other Struggle for Equal Schools Ruben Donato,1997-10-02 Contrary to popular belief that the struggle for educational opportunity during the civil rights era was waged exclusively by African Americans this fascinating book shows that the Mexican American population challenged discriminatory educational practice more than was portrayed by the media

Chicana/o Struggles for Education Guadalupe San Miguel,2013-04-29 Much of the history of Mexican American educational reform efforts has focused on campaigns to eliminate discrimination in public schools However as historian Guadalupe San Miguel demonstrates in Chicana o Struggles for Education Activism in the Community the story is much broader and more varied than that While activists certainly challenged discrimination they also worked for specific public school reforms and sought private schooling opportunities utilizing new patterns of contestation and advocacy In documenting and reviewing these additional strategies San Miguel s nuanced overview and analysis offers enhanced insight into the quest for equal educational opportunity to new generations of students San Miguel addresses questions such as what factors led to change in the 1960s and in later years who the individuals and organizations were that led the movements in this period and what motivated them to get involved and what strategies were pursued how they were chosen and how successful they were He argues that while Chicana o activists continued to challenge school segregation in the 1960s as earlier generations had they broadened their efforts to address new concerns such as school funding testing English only curricula the exclusion of undocumented immigrants and school closings They also advocated cultural pride and memory inclusion of the Mexican American community in school governance and opportunities to seek educational excellence in

private religious nationalist and secular schools The profusion of strategies has not erased patterns of de facto segregation and unequal academic achievement San Miguel concludes but it has played a key role in expanding educational opportunities The actions he describes have expanded extended and diversified the historic struggle for Mexican American education

The Pursuit of Racial and Ethnic Equality in American Public Schools Kristi L. Bowman, 2014-12-19 In 1954 the Supreme Court decided *Brown v Board of Education* ten years later Congress enacted the Civil Rights Act These monumental changes in American law dramatically expanded educational opportunities for racial and ethnic minority children across the country They also changed the experiences of white children who have learned in increasingly diverse classrooms The authors of this commemorative volume include leading scholars in law education and public policy as well as important historical figures Taken together the chapters trace the narrative arc of school desegregation in the United States beginning in California in the 1940s continuing through *Brown v Board* the Civil Rights Act and three important Supreme Court decisions about school desegregation and voluntary integration in 1974 1995 and 2007 The authors also assess the status of racial and ethnic equality in education today and consider the viability of future legal and policy reform in pursuit of the goals of *Brown v Board* This remarkable collection of voices in conversation with one another lays the groundwork for future discussions about the relationship between law and educational equality and ultimately for the creation of new public policy A valuable reference for scholars and students alike this dynamic text is an important contribution to the literature by an outstanding group of authors

Raza Schools Jesús Jesse Esparza, 2023-09-19 In 1929 a Latino community in the borderlands city of Del Rio Texas established the first and perhaps only autonomous Mexican American school district in Texas history How it did so against a background of institutional racism poverty and segregation is the story Jesús Jesse Esparza tells in *Raza Schools* a history of the rise and fall of the San Felipe Independent School District from the end of World War I through the post civil rights era The residents of San Felipe whose roots Esparza traces back to the nineteenth century faced a Jim Crow society in which deep seated discrimination extended to education making biased curriculum inferior facilities and prejudiced teachers the norm *Raza Schools* highlights how the people of San Felipe harnessed the mechanisms and structures of this discriminatory system to create their own educational institutions using the courts whenever necessary to protect their autonomy For forty two years the Latino community funded maintained and managed its own school system until 1971 when in an attempt to address school segregation the federal government forced the San Felipe Independent School District to consolidate with a larger neighboring mostly white school district Esparza describes the ensuing clashes over curriculum school governance teachers positions and funding that challenged Latino autonomy While focusing on the relationships between Latinos and whites who shared a segregated city his work also explores the experience of African Americans who lived in Del Rio and attended schools in both districts as a segregated population Telling the complex story of how territorial pride race and racism politics economic pressures local control and the federal government collided in Del Rio *Raza Schools*
