# Our Environment Theme Set

**Kenneth A. Hammond, George  
Macinko, Wilma B. Fairchild**

## **Our Environment Theme Set:**

**Our Environment Theme Set**, 1991-01-01      **Our Environment Theme Set** Ron Thomas, Thomas and Stutchbury, 1991      **Assessment of Priorities to 2010 for the Poor and the Environment**, 2000-01-01      **Covering the Environment** Bob Wyss, 2010-09-28

Covering the Environment serves as a primer for future and current journalists reporting on environmental issues across all types of media. This practical resource explains the primary issues in writing on the environment, identifies who to go to and where to find sources, and offers examples on writing and reporting the beat. It also provides background to help environmental journalists identify their audiences and anticipate reactions to environmental news. This primer emphasizes the role of environmental journalists not as environmental advocates but as reporters attempting to accurately and fairly report the news. Contents include: An overview and history of the environment and journalism spotlighting the most significant issues in the beat; Guidance on understanding environmental and health science ranging from issues of risk to scientific research and studies to interviewing scientists; Insights into government and regulatory communities and environmental advocates on all sides of the political spectrum; Assistance in accessing public records and conducting computer-assisted reporting; Guidance in writing the story for print, broadcast, and Internet audiences; An examination of the future of journalism and coverage of the environment; Observations and story excerpts from experienced journalists provide a real-world component illuminating the practice of environmental journalism. Additional features in each chapter include study questions, story assignments, and resources for additional information. The book also provides a glossary of environmental science, regulator, and journalism terms, as well as a reference section and index. This resource has been developed to train advanced undergraduate and graduate journalism students to cover the science and environment community, writing print and broadcast stories to a general audience. It also serves as a guide for working journalists who cover the environment in their work.

*Sourcebook on the Environment* Kenneth A. Hammond, George Macinko, Wilma B. Fairchild, 1978-05. Literature survey providing a guide to selected aspects of the environment: covers environmental protection, ecology, quality of life, urban development, environmental modifications relating to water quality, nature conservation, transport, etc. and includes a chronology of relevant laws, a directory of organizations, and bibliographies.

Sustainability Appraisal Barry Dalal-Clayton, Barry Sadler, 2014-03-26. Sustainability Appraisal is a sourcebook of the state of the art of this rapidly emerging and diversifying area. It draws on a wealth of international experiences and approaches to illustrate the status and scope of Sustainability Appraisal Assessment (SA). This comprehensive guide highlights how SA can be used to analyse and integrate the key environmental, social, and economic pillars of sustainability into decision-making at all levels, from policy to project to investment by government, business, and industry, or international organizations. Distilling both published and unpublished materials, and with contributions from a range of leading experts, organizations, and agencies, this book will be of significant value to professionals everywhere who are in need of a solid reference guide to what constitutes

SA practice and more importantly how and when it can be applied The Simpsons' Beloved Springfield Karma Waltonen, Denise Du Vernay, 2019-09-13 First aired in 1989 The Simpsons has become America's most beloved animated show. It changed the world of television bringing to the screen a cartoon for adults, a sitcom without a laugh track, an imperfect lower class family, a mixture of high and low comedy and satire for the masses. This collection of new essays explores the many ways in which The Simpsons reflects everyday life through its exploration of gender roles, music, death, food, politics, science, and religion, anxiety, friendship, and more.

**Directory of Environmental Indicator Practitioners**  
Nathaniel O. Emmert, 1996

**Cases in the Environment of Business** David W. Conklin, 2006 The Ivey Casebooks Series is a co-publishing partnership between SAGE Publications and the Richard Ivey School of Business at The University of Western Ontario. Due to their popularity in more than 60 countries, approximately 200 new cases are added to the Ivey School of Business library each year. Each of the casebooks comes equipped with instructor's resources on CD-ROM. These affordable collections will not only help students connect to real world situations but will benefit corporations seeking continued education in the field as well. Broadening the scope of environmental forces to a global rather than a domestic context leads to cross-country comparisons that add complexity to the subject matter, enrich analytical theories, and heighten the interest of students. Students gain an appreciation for the many ways in which environmental forces interact, creating a set of risks and opportunities that is unique in each country and that must be evaluated in formulating trade and investment decisions. Cases in the Environment of Business offers an outstanding collection of relevant classroom-tested cases. In discussing the cases, students will participate in managerial decisions in an international context. Most cases deal with a variety of environmental forces but generally a single set of forces plays a predominant role. The instructor's resources on CD-ROM includes detailed 6-10 page casenotes for each case, preparation questions for students to review before class, discussion questions, and suggested further readings. Cases in the Environment of Business addresses the following five sets of environmental forces: Industry Structure, Responses to strategies of customers, suppliers, and competitors, dependence of profitability on unique value added attributes, and the shift of certain activities to low wage countries; Macroeconomic Variables, Income levels and growth rates, foreign exchange rates, inflation rates, interest rates, and unemployment rates; Political Variables, Regulations, financial incentives, taxation, foreign investment restrictions, and international trade and investment agreements; Societal Variables, Labor and environmental practices, ethics, corporate social responsibility, boards of directors, and demographics; Technological Variables, Technological infrastructure, and the pace and direction of technological changes, including in particular the Internet and e-business. The IVEY Casebook Series: Cases in Business Ethics, Cases in Entrepreneurship, Cases in Gender Diversity in Organizations, Cases in Operations Management, Cases in Organizational Behavior, Cases in the Environment of Business, Cases in Alliance Management, Mergers and Acquisitions Text and Cases.
