[Our Marching Civilization](#) Warren Dwight Allen,2017-11-21 Excerpt from *Our Marching Civilization An Introduction to the Study of Music and Society* When I came to the history of the march however the materials available were so rich and as yet so unassembled that the temptation grew to devote a project to it The march is not only a musical form it is in itself suggestive of the condition we have set up for civilization Mankind is civilized we believe when it shows capacity for progress for getting out of the rut in which a vegetating culture is content for lifting weaker members to their feet so they may go ahead with the strong to higher levels of living in thought and in action We therefore speak automatically of the march of this or that whenever we mean that this or that has been improved or has itself improved the life of man About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
