sometimes left defeated and disillusioned Myth and belief Tradition and logic Revolution and marginalisation Ignorance and hubris Sins and excess Seasons and climate Continuously interacting shifting to enlighten and to enrage these themes combine critical thinking with deep rooted influences and new agencies that are a true sign of the times The 18 illustrated speculations provide an abundance of curious imaginings diverse provocations and satirical criticism While there are distinctions between dreams and disillusionments could virtues be made of sins or sensitivity be borne from hubris Could progress advocate tradition or should we re attempt revolutions formerly experienced as disillusionments Whether by bold gestures or by subtle attrition cities are continually re written crucibles for the human condition In this book we develop a better understanding of the discourse of cities tailored to the determining factors of climate resources and humanity s idiosyncrasies to address a world in crisis
