Lukacs Reappraised:

Lukács Reappraised Agnes Heller, 1983 This authoritative survey traces the development of Lukács thought from his conversion to Marxism to his renunciation of History and Class Consciousness from his remarkably fertile essay period to the Ontology The essays explore the evolution of his work in relation to that of his contemporaries among them Brecht Bloch and Husserl They reflect at every turn the contributors broad commitment to Lukács philosophy but they are always critical in their approach Lukács ambiguities are noted without compromise and his inconsistencies deftly exposed

Recovering the Later Georg Lukács Matthew J. Smetona, 2023-04-25 New resources for the critique of capitalism in culture from the late writings of Georg Lukács one of the first authors in the tradition of Western Marxism The Hungarian literary critic philosopher and Marxist social theorist Georg Lukács is best known for his 1923 History and Class Consciousness in which he offered an influential critique of reification from the standpoint of a dialectical conception of totality While Lukács's early works have been central to the study of Marxist thought his later works have often been dismissed as political accommodations to Stalinism In this new study Matthew Smetona argues for a revisionist interpretation of Lukács's later writings on topics as diverse as aesthetics politics and ontology Smetona demonstrates that these writings reveal a methodological unity that follows directly from History and Class Consciousness in which realism in both literary and extraliterary senses becomes the basis for the critique of reification As Lukács had demonstrated reification is that process by which the social relations between persons seem to take on the character of a thing Rooted in Marx's concept of commodity fetishism the critique of reification proved in Lukács's hands to be a flexible tool capable of clarifying all manner of obfuscations that arise within the social relations that capitalism produces To recover the later work of Lukács is to open up new horizons for Marxist cultural criticism

Georg Lukács and His Generation, 1900-1918 Mary Gluck, 1991 Here is Lukács among friends lovers and peers in those important years before 1918 when he converted to Communism and Marxism at the age of 39 Lukács emerges as dramatic and psychologically complex but also as a figure whose dilemmas were echoed in the lives of other radical intellectuals who came of age during the fin de siècle period

Towards a Radical Democracy (Routledge Revivals) Douglas Brown, 2013-12-19 Originally published in 1988 this is the first systematic account of the writings of Hungarian dissidents and former students of George Lukács collectively known as the Budapest School Dr Brown demonstrates the importance of their work in contributing to a logically consistent yet realistic theory of socialist mixed economies and genuine radical democracies The Budapest School's model of radical democracy represents a critique of both industrial capitalism and existing socialist systems with immediate political as well as philosophical importance Dr Brown is particularly concerned to draw out its significance for the practical realities of political economy and the logical implications for desirable reform of Western mixed economies

Twentieth-century Eastern European Writers Steven Serafin,1999 From Ghetto to Emancipation David N. Myers,William V. Rowe,1997 The central addressed the conference question by reported on in this book was posed by Salo Wittmayer Baron then a young Jewish historian in his 1928 essay Ghetto and Emancipation In it he challenged what he called the lachrymose conception of Jewish history in which the Jewish Middle Ages were all evil and Jewish post Emancipation was all good In asserting that medieval Jews possessed more rights than the great bulk of the population and enjoyed full internal autonomy in the corporatist order of medieval civilization he also found much to criticize in the loss of communal autonomy and the recasting of Judaism into a narrow confessional mold in the wake of the Enlightenment In other words how can a group seeking to preserve a measure of collective identity survive within a liberal society that values individual rights and obligations above all else This became the basis for a conference in 1995 at the University of Scranton attended by a distinguished roster of scholars on various fields of Jewish studies from across the United States

Whither China? John David Kadvany,2001 Whither China presents an in depth and wide angled picture of Chinese intellectual life during the last decade of the millennium as China struggled to move beyond the shadow of the Tiananmen tragedy Because many cultural and intellectual paradigms of the previous decade were left in ruins by that event Chinese intellectuals were forced in the early 1990s to search for new analytical and critical frameworks Soon however they found themselves engulfed by tidal waves of globalization surrounded by a new social landscape marked by unabashed commodification and stunned by a drastically reconfigured socialist state infrastructure The contributors to Whither China describe how instead of spearheading the popular mandated and state sanctioned project of modernization intellectuals now find themselves caught amid rapidly changing structures of economic social political and cultural relations that are both global in nature and local in an irreducibly political sense Individual essays interrogate the space of Chinese intellectual production today lay out the issues at stake and cover major debates and discursive interventions from the 1990s Those who

write within the Chinese context are joined by Western observers of contemporary Chinese cultural and intellectual life
Together these two groups undertake a truly international intellectual struggle not only to interpret but to change the world
