years ago It was the first collection of anything I put down on paper Back then my life took a turn and suddenly the need to record things became simply overwhelming The interesting thing about this body of work is each story came to me almost in its entirety Honestly it felt more as if I were taking dictation rather than being a thoughtful writer They have a poetic or more accurately a lyrical quality to them they simply insisted upon this genre for some reason I remember hearing as a young girl that a story chooses you not the other way around Well I can attest to that for even though the writing has to do with my life's lessons there was no preparation for such a project There are 38 stories with 38 adjoining pieces of art I hope you enjoy my paintings
